Defendant Profile: Former President Joseph R. Biden Jr.

Former President of the United States | Architect of the Rosemont Network | "The Big Guy" Behind Election Interference, Financial Crimes, and Political Violence

Role:

Former President Joseph R. Biden Jr. served as the 46th President of the United States; he was the architect and political anchor of the Rosemont Network—a criminal alliance operating across financial, intelligence, academic, and governmental spheres. He is the central figure in the 2020 election interference, the 2024 attempted assassination of Donald J. Trump, and the provision of material support to foreign terrorist actors through covert financial structuring and weaponized public policy.

Biden also founded and named the **Penn Biden Center for Diplomacy and Global Engagement**, an academic office at the University of Pennsylvania (UPenn) that **served as a covert staging ground** for:

- classified document concealment,
- · campaign recruitment,
- narrative coordination,
- and expansion of the Rosemont Network's influence into Pennsylvania.

This office—partially funded by Chinese-linked interests—became a hub for Rosemontaligned officials such as Antony Blinken, Ron Klain, and Jeffrey Zients. It played a direct role in shielding evidence, silencing investigations, and protecting the financial apparatus connected to Robert H. Biden and Rosemont Seneca Partners, LLC.

Alleged Offenses:

- RICO Conspiracy & Corrupt Organizations
- Money Laundering & Financial Fraud
- Bribery & Pay-to-Play Schemes
- Obstruction of Justice & Suppression of Evidence
- Election Interference & Political Violence Conspiracy

- Material Support for Terrorism (Foreign & Domestic)
- Financial Crimes & Money Laundering
- Border Invasion Facilitation & Social Security Fraud
- Fraudulent Election Practices & Voter Manipulation
- The Border Crisis & Its Consequences

References:

 See Joseph R. Biden, Jr.'s PA2 (below) and Joseph R. Biden, Jr.'s USC2 (below) for detailed criminal activities related to Biden's role in border invasion facilitation, including fraudulent SSNs, human trafficking, illegal immigration, and more.

The Border Crisis & Its Consequences

Motive:

The collapse of border security, under Biden/Harris, led to the influx of illegal immigrants, attracted by free money and benefits misappropriated from U.S. taxpayers. This deliberate breakdown in border enforcement was strategically aimed at increasing the number of dependent voters, to ensure Democrat dominance became permanent, and to guarantee Biden would win a second term in office. By facilitating the border invasion, the Biden administration opened the gates to individuals seeking to exploit welfare programs, while undermining the integrity of U.S. laws and systems.

Consequences:

This deliberate influx of illegal immigrants contributed to numerous drug overdose deaths and murders of U.S. citizens in Pennsylvania. The porous border allowed illegal drugs, such as fentanyl, to flood into the state, resulting in a dramatic rise in overdose deaths. In addition, the increasing number of illegal aliens in Pennsylvania has led to a surge in violent crime, including murders committed by individuals who entered the country unlawfully. These deaths, both from drug overdoses and violent crimes, are a direct consequence of Biden's policies that effectively opened the border and allowed criminal elements to exploit the system.

- 18 U.S.C. § 2332a Use of Weapons of Mass Destruction (Conspiracy/Attempt) → Empowering Iran's Nuclear Program: Biden's authorization of resource reallocation to Iran enabled the further development of nuclear capabilities.

Pennsylvania Violations (PA2):

☐ 18 Pa.C.S. § 3922 – Theft by Deception

□ Fraudulent Issuance of Social Security Numbers (SSNs) to Illegal Aliens: The Biden administration facilitated the fraudulent issuance of SSNs to noncitizens, granting them access to taxpayer-funded benefits such as Social Security, Medicare, Medicaid, Housing, SNAP (Food Stamps), and the right to vote.
□ Voter Fraud through Illegal Alien Registrations : Illegals issued with SSNs were automatically registered to vote, often in Democratic districts, artificially inflating the voter base and undermining election integrity.
☐ Child Smuggling : Exploiting weak border policies to allow child trafficking into Pennsylvania, enabling criminal organizations to benefit from forced labor and sexual exploitation.
□ Endangerment of Minors : The collapse of border control left minors vulnerable to exploitation, trafficking, and abuse by criminal organizations operating within and across state lines.
□ 18 Pa.C.S. § 2706 – Terroristic Threats
□ Encouraging the Collapse of Border Control: Biden's policies contributed to the collapse of the southern border, resulting in an influx of illegal aliens and drugs into the U.S. and Pennsylvania.
□ 18 Pa.C.S. § 2901 – Kidnapping
□ Child Trafficking and Kidnapping : Facilitating child trafficking by enabling criminals to bring children into Pennsylvania for forced labor, sexual exploitation, and other illicit purposes. The lack of proper immigration control and policy enforcement allowed criminal syndicates to target vulnerable children.
□ 18 Pa.C.S. § 3301 – Arson : The deliberate destruction of border security infrastructure that allowed criminal activity and trafficking to thrive, enabling terrorists and illegal migrants to exploit the U.S. border systems.

Federal Violations (USC2)

• 18 U.S.C. § 371 – Conspiracy to Defraud the United States

Coordinating the concealment of criminal conduct and obstruction of lawful investigations, including suppression of evidence related to Hunter Biden's laptop and involvement in financial schemes that defraud U.S. taxpayers.

• 18 U.S.C. § 1343 – Wire Fraud

Fraudulent transmissions involving the issuance of SSNs to illegal aliens, allowing them to claim taxpayer-funded benefits, and wire transfers used in furthering the Rosemont Network's financial crimes.

• 18 U.S.C. § 1956 – Money Laundering

Movement of illicit funds through corporate structures to conceal the origin of money obtained from foreign sources, including Chinese and Ukrainian interests, benefiting Joe Biden and his associates.

• 18 U.S.C. § 201 – Bribery of Public Officials

Selling access to his father's position as Vice President, including his involvement in pressuring foreign governments for monetary benefits to U.S. political figures through the Rosemont Network.

• 18 U.S.C. § 2339B – Providing Material Support to Terrorist Organizations Facilitating the movement of illicit funds and influencing policies that could benefit terrorist organizations or foreign powers hostile to U.S. interests.

• 18 U.S.C. § 2 – Aiding and Abetting

Aiding and abetting the illegal activities of Hunter Biden and foreign associates, including the exploitation of U.S. taxpayer resources for personal gain, as well as facilitating illegal immigration and human smuggling.

• 18 U.S.C. § 1512 – Obstruction of Justice

Destruction and concealment of evidence related to illegal actions taken by Joe Biden, Hunter Biden, and their associates to suppress information about foreign dealings and influence peddling during Biden's tenure as Vice President and President.

• 18 U.S.C. § 1581 – Slavery; Peonage

Involvement in human trafficking operations, including illegal transport of individuals into the U.S. to exploit them for labor or sexual purposes. The collapse of border security, under Biden/Harris, facilitated the illegal entry of individuals into Pennsylvania, with the potential for them to become victims of human trafficking and forced labor.

• 18 U.S.C. § 1583 – Enticement into Slavery

Facilitating the enticement and transportation of individuals into the U.S. for the purposes of labor trafficking, sexual exploitation, or forced servitude, taking advantage of the porous border policies enacted under the Biden administration.

• 18 U.S.C. § 1591 – Sex Trafficking of Children or by Force, Fraud, or Coercion Enabling human smuggling and sex trafficking operations by allowing illegal entry into the U.S., facilitating the exploitation of minors and adults for forced labor and sexual purposes, particularly in Pennsylvania, which has seen a rise in such cases.

• 18 U.S.C. § 2332a – Use of Weapons of Mass Destruction

While this statute is typically used for terrorism, the illegal migration influx, aided by the Biden administration's collapse of border security, has led to the importation of infectious diseases like tuberculosis, COVID-19, and others into the United States. This can be considered an act of biological risk that poses a serious threat to public health, especially with no adequate health screening at the border.

• 42 U.S.C. § 264 – Control of Communicable Diseases

Facilitating the importation of individuals with communicable diseases into the U.S. without proper screening or quarantine measures, exacerbating the spread of diseases such as tuberculosis, COVID-19, and other viral and bacterial infections. This can result in outbreaks within states like Pennsylvania, which has already experienced issues with diseases like tuberculosis and COVID-19 from migrants.

• 18 U.S.C. § 1382 – Entry of Aliens into the U.S. After Deportation

The Biden administration's failure to enforce U.S. immigration laws has allowed individuals, including those with communicable diseases, to re-enter the country. These individuals can circumvent health screening procedures, allowing diseases to spread and creating public health crises.

• 8 U.S.C. § 1227 – Deportable Aliens

Non-citizens with communicable diseases who enter illegally under the collapse of border enforcement and are not properly detained, deported, or medically treated contribute to the risk of disease outbreaks. Inadequate screening protocols result in the spread of diseases, further harming U.S. citizens and residents.

• 18 U.S.C. § 2339A – Providing Material Support to Terrorists

While primarily for terrorist organizations, this statute could be applied to those who facilitate illegal border crossings that allow entry for individuals who pose a health risk to the population. This includes those who help transport migrants who might be carrying contagious diseases, resulting in potential public health threats.

Sovereign Immunity Assessment – Former President Joseph R. Biden Jr.

As President, Biden may claim **limited civil immunity** under Nixon v. Fitzgerald. However, **no form of immunity extends to criminal acts**, especially:

- criminal solicitation of political violence,
- financial conspiracy involving foreign actors,
- provision of support to terrorism,
- and attempted assassination.

His conduct occurred **outside the lawful duties of the presidency**, and many of these violations **began prior to taking office** or were part of a **pattern of ongoing concealment and racketeering.** Biden's invocation of privilege fails under both federal precedent and Pennsylvania law.

Findings & Supporting Evidence:

Summary of Role in Violations:

Former President Joseph R. Biden Jr. was **not merely protected by the Rosemont Network—he commanded it**. He issued directives, shaped cover-ups, and used every institution under his control to **protect his family, retain power, and eliminate threats**.

**UPenn Biden Center Office Cover-Up:

- Established in 2017 by Biden after his vice presidency.
- Used to store classified documents, hire foreign-aligned staff, and insulate the Rosemont financial web.
- Partially funded by Chinese donors (donations tripled after the office opened).
- Key staff: Blinken, Klain, Zients—all placed in senior White House positions.
- The classified material found there was discovered before the 2022 midterms but suppressed to avoid political fallout.

This was not academic storage—it was a **strategic concealment site** tied to financial influence, national security breaches, and Pennsylvania-based corporate structures.

The First Assassination Attempt – 8/8/2022 Mar-a-Lago Raid:

- Authorized by Biden's DOJ.
- Designed to provoke a deadly Secret Service confrontation under plausible deniability.
- **SWAT-style raid mirrored false-flag tactics**, potentially creating a "tragic accident" to remove Trump from the race.

When this failed, the network escalated to the July 13, 2024 Butler attempt.

The Failed Covert Coup – Laptop Cover-Up (2020):

- 51+9 intelligence officials signed a letter to **falsely label Hunter Biden's laptop as** "Russian disinformation."
- CIA Director Morell admitted it was **drafted to help Biden win**.
- Biden was the **named beneficiary**, with his campaign coordinating distribution.
- This constitutes election interference and conspiracy under both state and federal law.

"Bullseve" Statement – Direct Incitement to Violence:

- July 8, 2024: Biden declared, "Time to put Trump in the bullseye."
- July 13, 2024: Trump was nearly assassinated at the **center of the Rosemont Seneca Bullseye** in Butler, PA.
- The statement's proximity to the attack is undeniable.

Financial Crimes & Foreign Corruption:

- RSP-LLC used to launder political influence and foreign money.
- Transactions tied to **Burisma**, **CEFC China Energy**, and other overseas actors.
- Funds routed through **Pennsylvania banks and front companies**.

Biden's administration **then released \$6B (and later \$10B) to Iran**, enabling Hamas's Oct. 7, 2023 massacre and the advancement of Iran's WMD program.

Foreign Policy Weaponization & Terrorism:

- 9/11/2023: \$6B released to Iran (100-year anniversary of Hitler's Beer Hall Putsch).
- 10/7/2023: Hamas terrorists **murdered over 1,200 civilians** in Israel and **took approximately 250 hostages** back into Gaza. These hostages included women, children, and the elderly, and many remain unaccounted for or in captivity as of early 2024.
- **2021**: Biden removed the **Houthis (Ansar Allah)** from the U.S. Foreign Terrorist Organization list.
 - → This policy reversal allowed Iran to **funnel funds and weapons to Houthi forces** with fewer international restrictions.
 - → The Houthis have since launched missile and drone attacks against U.S. and Israeli targets, and obstructed global shipping in the Red Sea.
- The timing, beneficiaries, and pattern of state-enabled terrorism reinforce the charge of material support to terrorism and deliberate destabilization

PUse of Federal Agencies to Protect the Network:

- DOJ, FBI, and IC blocked investigations into Hunter Biden's financial crimes.
- RFK Jr. denied Secret Service protection despite escalating threats.
- Trump's Butler rally featured intentional security failures.

Final Verdict:

- Biden incited political violence.
- Biden provided material support to terrorism.
- Biden coordinated financial concealment through Pennsylvania.
- Biden orchestrated the Mar-a-Lago raid and enabled the Butler assassination attempt.
- Former President Joseph R. Biden Jr. must be indicted under both Pennsylvania and U.S. law

There is no privilege for murder. There is no immunity for treason. There is only justice.

Defendant Profile: Mark A. Milley

Former Chairman of the Joint Chiefs of Staff (2019–2023)

General Mark A. Milley served as the highest-ranking military officer in the United States, overseeing the Joint Chiefs of Staff under both Presidents Trump and Biden. Though sworn to protect the Constitution and the American people, Milley's conduct reveals a sustained betrayal of duty that benefited America's enemies, weakened U.S. military readiness, and empowered the Rosemont Network's broader objectives.

Alleged Offenses

Milley's tenure is marked by coordinated derelictions and breaches of trust that rise to the level of treason, sedition, and conspiracy:

- The Afghanistan Betrayal: Milley oversaw the disastrous U.S. withdrawal from Afghanistan. He ordered the evacuation of troops before civilians, resulting in **thousands** of U.S. citizens and allies left behind, many of whom were captured, tortured, or killed.
- **Abbey Gate Massacre**: On his watch, **13 American service members were killed** in the Abbey Gate bombing—one of the deadliest attacks on U.S. troops in recent history.
- Bagram Air Base Surrender: Milley abandoned Bagram, America's most advanced forward operating base, located just an hour's flight from China's nuclear facilities. China now controls the air base—one of the greatest military handovers in U.S. history.
- \$90 Billion in Military Equipment Left to Enemies: Despite previously acknowledging to President Trump that leaving behind U.S. weaponry was strategically indefensible, Milley later claimed it was "more expensive" to fly the equipment home. This move armed America's enemies—including the Taliban, Iran, and their terror affiliates—and constitutes theft and destruction of government property.
- Woke Military Transition & Purge of Patriots: Milley led efforts to "transition" the U.S. military ideologically. Under his tenure, soldiers were fired for refusing the COVID-19 "vaccine," weakening morale, combat readiness, and recruitment. This

- **intentional ideological purge** was consistent with the broader goals of shifting American military power toward alignment with globalist interests and communist sympathies.
- Pledged to Warn China of U.S. Military Action: Milley privately told his Chinese counterpart he would alert him ahead of any U.S. military strike—a breach of trust that borders on espionage and treason.
- Concealment of Dereliction in Chain of Command: Milley refused to inform Congress or the public of Secretary of Defense Lloyd Austin's secret hospitalization, which left the Pentagon without leadership during heightened global conflict.
- Shielding the Rosemont Network: Milley failed to act on glaring irregularities in the military chain of command and refused to investigate financial, national security, and corruption scandals involving the Rosemont Network.
- Advisory Role in DOJ National Security Claims: As Chairman, Milley may have offered national security cover to justify political actions taken by the DOJ—including the August 8, 2022, FBI raid on Mar-a-Lago, which resembled a home invasion Swatting operation, falling exactly 53 years after the infamous 8/8/69 Tate-LaBianca murders. That earlier massacre, symbolically executed by Rosemont-aligned Hollywood operatives, marked the destruction of the Kennedy legacy and was followed 21 days earlier by the suspicious death of Mary Jo Kopechne—a native of Wilkes-Barre, Pennsylvania.

Involvement in the Border Crisis and Election Interference

- Milley, through his leadership and failure to secure U.S. borders, allowed an invasion of illegal aliens, increasing the flow of dangerous individuals and drugs into the U.S. and Pennsylvania. This contributed to voter fraud and manipulation, impacting critical battleground states and furthering Rosemont-aligned political goals.
- His inaction during the border crisis, and failure to utilize military resources for national
 defense, played directly into the hands of foreign actors and political operatives seeking
 to destabilize the U.S. electoral process.

Border Collapse Reference (PA2 and USC2)

In his role as Chairman of the Joint Chiefs, General Milley's inaction and alignment with policies that facilitated the border collapse tie him directly to the crimes outlined in **Joseph R. Biden, Jr.'s PA2** and **Joseph R. Biden, Jr.'s USC2**, which pertain to fraudulent issuance of SSNs, human trafficking, and illegal immigration. These crimes were carried out as part of a broader conspiracy to disrupt U.S. sovereignty and undermine national security. Milley's failure to intervene allowed criminal syndicates to thrive, leveraging weakened border control for financial and political manipulation, directly benefiting the Rosemont Network and foreign-aligned interests.

Rosemont Network Ties & Global Implications

By 2023, Milley presided over the U.S. military while the Biden administration transferred \$6 billion to Iran on 9/11, followed by the October 7 Hamas massacre in Israel. His silence, obedience, and continued facilitation of policies that advanced enemy capabilities make him a key enabler of the Third World War.

Combined with the \$90B military forfeiture and Bagram handover, Milley's actions directly **funded and empowered enemy operations** in a manner consistent with the objectives of the Rosemont Network—a transnational criminal and political syndicate with roots in Pennsylvania and deep ties to China.

UCMJ Violations – Military Crimes Under the Uniform Code of Military Justice

Chairman of the Joint Chiefs of Staff (CJCS), Senior Military Advisor to the President

Role: Chairman of the Joint Chiefs of Staff (Active Duty)

General Milley's actions across multiple theaters—including the chaotic Afghanistan withdrawal, unauthorized backchannel communications with China, and defense of unlawful military planning—constitute serious breaches of military conduct, strategic discipline, and constitutional boundaries.

• Article 92 – Failure to Obey an Order or Regulation (10 U.S.C. § 892)

- Milley failed to enforce proper accountability and command structure during the withdrawal from Afghanistan, violating standing orders regarding force protection, the safeguarding of U.S. military assets, and secure evacuation of personnel.
- He ignored intelligence warnings ahead of the **Abbey Gate bombing**, violating established DoD protocols (e.g., FPCON Delta) requiring immediate gate lockdown in threat environments.

• Article 133 – Conduct Unbecoming an Officer and a Gentleman (10 U.S.C. § 933)

- His public defense of the withdrawal—despite private awareness of the impending chaos and intelligence breakdown—constituted dishonorable conduct.
- His failure to intervene before the **Abbey Gate bombing**, despite advance warning, betrayed the ethical standard expected of a senior military officer.

• Article 134 – General Article (10 U.S.C. § 934)

- Milley's pattern of deception, political maneuvering, and fatal negligence discredited the armed forces, damaged morale, and led to strategic catastrophe.
- The **loss of 13 U.S. service members at Abbey Gate** due to preventable inaction irreparably tarnished military credibility and leadership confidence.

• Article 121 – Larceny and Wrongful Appropriation (10 U.S.C. § 921)

By approving the abandonment of over \$90 billion in military assets, Milley enabled advanced U.S. weapons and biometric tools to fall into Taliban and foreign hands—amounting to misappropriation of U.S. government property.

• Article 108 – Destruction of Government Property (10 U.S.C. § 908)

The loss of **Bagram Air Base**, abandoned without public explanation or protective strategy, resulted in the destruction, misuse, or seizure of classified U.S. military technology, violating national defense protocols.

Summary of UCMJ Violations for Milley in the Context of the Border Collapse:

• Article 92 – Failure to Obey an Order or Regulation: Potential failure to take action or support military readiness regarding the U.S. border security, undermining CBP efforts.

- Article 134 Conduct Prejudicial to Good Order and Discipline: Inaction, support, or mismanagement of the military's role in securing the U.S.-Mexico border during the crisis
- **Article 106 Spying**: Any indirect support or failure to act against national security threats posed by illegal border crossings.
- Article 132 General Military Offenses: Allowing military resources to be mismanaged or diverted away from national security priorities, including border enforcement.

Sovereign Immunity Consideration - Mark A. Milley

Milley's actions fall squarely outside the protections of sovereign immunity. His betrayals were **not discretionary mistakes** but deliberate, repeated, and conspiratorial. His service as Chairman of the Joint Chiefs was exploited to **advance the strategic goals of foreign adversaries**, facilitate treasonous decisions, and execute operations beneficial only to enemy regimes and Deep State power brokers. Milley operated **as an enemy in the uniform of a U.S. General**—and must be criminally charged under both military and civilian statutes.

Defendant Profile: Lloyd J. Austin III

Role Secretary of Defense (Civilian Appointee, Retired Four-Star General)

Lloyd Austin, though serving as a civilian Secretary of Defense, remains accountable under the Uniform Code of Military Justice due to his retired General status. His leadership failures during wartime—including concealment of incapacitation, the attempted scrubbing of ambulance records, breakdowns in chain-of-command protocols, and gross equipment abandonment—violate multiple Articles of the UCMJ and expose a national security threat originating from within the Department of Defense.

Alleged Offenses

- Obstruction of justice
- Criminal conspiracy to conceal classified materials
- Participation in ongoing racketeering under RICO
- Use of executive authority to suppress evidence tied to national security
- Shielding foreign-tied financial operations involving Robert H. Biden
- Aiding and abetting political incitement through dereliction of oversight
- Border Invasion Facilitation & Social Security Fraud
- Fraudulent Election Practices & Voter Manipulation
- The Border Crisis & Its Consequences

Reference:

• See Joseph R. Biden, Jr.'s PA2 and USC2 for detailed information on Lloyd J. Austin's role in border invasion facilitation and related crimes, tied to the broader failure of Biden's border policies and immigration enforcement.

Rey Evidence

The 13-Day Disappearance (Dec 22, 2023 – Jan 5, 2024)

- Austin was hospitalized for prostate cancer complications but failed to notify top leadership.
- For 13 days, the U.S. military had no clear civilian leader.
- This absence coincided with ongoing Hamas warfare, Iranian threats, and U.S. Navy operations under fire.

Failure to Act on Intelligence Leading to the Hamas Massacre (10/7/23)

• Austin was in office when Biden's team **released \$6B to Iran on 9/11/23**, the symbolic anniversary of Hitler's 1923 putsch.

- That money **allegedly funded Hamas's mass murder of 1,200+ Israelis**, the worst massacre of Jews since the Holocaust.
- Austin either failed to intercept or **enabled the policy by omission**, implicating him in **material support for terrorism**.

■ Dereliction of Duty – Voluntary Surgery During Wartime

- His **non-urgent surgery** could have been delayed.
- His concealment mirrors Buttigieg's baby formula scandal, revealing a pattern: The Rosemont Network rewards abandonment of duty.

Possible Knowledge of Biden's "Bullseye" Directive

• If Austin heard Biden's directive—"Put Trump into the bullseye"—and took no action, he is **culpable by silence or complicity**.

Failure to Prevent the East Palestine Attack (2/3/2023)

- As Pentagon chief, Austin had access to satellite intel, psychological warfare units, and real-time domestic threat analysis.
- If East Palestine was a **false flag or symbolic strike**, Austin's silence makes him complicit in a **domestic psychological operation**.

Pattern of Concealment

• Austin's deliberate cover-up of his absence violated **civilian-military transparency**, bypassed national security protocols, and **left allies vulnerable**.

Detailed Legal Violations

Federal Statutes (U.S.C.)

18 U.S.C. § 2381 – Treason

Knowingly enabling or concealing acts of war or political violence that benefit foreign powers—particularly if Austin remained silent about a policy (the \$6B Iran deal) that led to the murder of U.S. allies.

18 U.S.C. § 2384 – Seditious Conspiracy

Willfully participating in, or enabling, coordinated efforts to obstruct lawful government functions or incite political violence through inaction or concealment of operational failures.

18 U.S.C. § 2382 – Misprision of Treason

Having knowledge of treasonous conduct (e.g., Biden's directive or Iran-backed attacks) and failing to report or oppose it as a duty-bound military official.

18 U.S.C. § 2387 – Activities Affecting Armed Forces Generally

Actively or passively undermining U.S. military readiness by **disabling the chain of command** and withholding his incapacitation during international crisis periods.

18 U.S.C. § 2339A – Material Support to Terrorists

Failure to oppose or investigate Biden's release of \$6B to Iran, a known terror sponsor, while serving as DoD head—constitutes willful support by omission.

18 U.S.C. § 371 – Conspiracy to Defraud the United States

Disappearing during wartime, thereby **concealing executive dysfunction** and potential operational breakdowns from oversight.

18 U.S.C. § 1001 – False Statements or Omissions

Failure to disclose his hospitalization and health status to key government personnel constitutes **criminal omission of material fact**.

Uniform Code of Military Justice (UCMJ) Violations — Lloyd J. Austin III

Role: Secretary of Defense (Civilian Appointee, Retired Four-Star General)

Lloyd Austin, though serving as a civilian Secretary of Defense, remains accountable under the **Uniform Code of Military Justice** due to his retired General status. His leadership failures during wartime—including concealment of incapacitation, breakdown of command protocols, and strategic mismanagement—violate multiple articles of the UCMJ.

• 10 U.S.C. § 892 – Article 92: Failure to Obey Order or Regulation

- Austin failed to uphold the unbroken chain of command when he concealed his hospitalization in early 2024, leaving the Department of Defense leaderless during active global threat periods.
- He allegedly attempted to **scrub ambulance dispatch records** from the public record, an intentional violation of military notification protocols and medical transparency procedures.
- This constitutes a willful breach of his lawful duty to ensure continuity of military oversight.

• 10 U.S.C. § 933 – Article 133: Conduct Unbecoming an Officer and a Gentleman

- Withholding knowledge of his medical condition from the President, National Security Council, and Joint Chiefs reflects dishonorable conduct incompatible with the office he held.
- His concealment endangered national security and eroded internal trust across military and executive leadership.
- The alleged attempt to obscure ambulance activity reflects premeditated deception and a breach of both ethical and legal duty.

• 10 U.S.C. § 934 – Article 134: General Article

- Austin's actions—including his mishandling of the Afghanistan withdrawal, oversight of the \$90B military equipment loss, and concealment of incapacitation—collectively undermine the good order, discipline, and readiness of the armed forces.
- His failure to ensure adequate force protection at **Abbey Gate** led directly to the **death of 13 American troops** during evacuation operations at Hamid Karzai International Airport.
- These preventable losses reflect a breakdown of battlefield leadership, operational readiness, and risk assessment protocols under his command.
- The concealment of emergency medical response data constitutes prejudicial conduct, especially during a time of global risk.

• 10 U.S.C. § 921 – Article 121: Larceny and Wrongful Appropriation

Under Austin's leadership, U.S. military equipment was knowingly abandoned to the Taliban without recovery plans, representing wrongful misappropriation of taxpayer-funded property and a catastrophic failure of fiduciary responsibility.

• 10 U.S.C. § 908 – Article 108: Destruction of Government Property

- The abandonment of **Bagram Air Base**, including sensitive hardware and national security systems, was approved on Austin's watch.
- This led to widespread destruction or enemy repurposing of U.S. defense assets, constituting willful dereliction of military stewardship.

Pennsylvania Criminal Code (Pa.C.S.)

18 Pa.C.S. § 4304 – Endangering the Welfare of Others

By abandoning post during global conflict, Austin placed both civilians and servicemembers in danger.

18 Pa.C.S. § 902 – Criminal Solicitation (By Omission)

Knowingly failing to prevent or respond to threats or mass attacks qualifies as **soliciting harm through silence**.

18 Pa.C.S. § 903 – Criminal Conspiracy

His actions appear coordinated with others inside the Rosemont Network to conceal executive breakdown and **enable foreign-sponsored violence**.

18 Pa.C.S. § 911 – Corrupt Organizations (RICO)

Participation in the systemic failure of U.S. defense, intelligence suppression, and potential foreign enrichment within the Rosemont structure qualifies as RICO-eligible behavior.

Sovereign Immunity Assessment – Lloyd J. Austin III

Austin cannot invoke sovereign or qualified immunity for the following reasons:

- Criminal Dereliction of Duty: Voluntarily abandoning post during live conflict and documented threats to allied security (Israel, Red Sea).
- Breach of Civilian-Military Protocol: Failure to notify Joint Chiefs, the President, or NSC about incapacitation and leave of absence.
- National Security Compromise: Ignoring or enabling decisions (like the \$6B transfer to Iran) that resulted in terrorism, death, and regional destabilization.
- Violation of UCMJ: Military personnel are not immune from prosecution for violations of Articles 92, 133, and 134.
- **Conspiratorial Silence:** Withholding knowledge of executive incitement ("bullseye") or acts of war violates both federal and military law.

Defendant Profile: Ronald A. "Ron" Klain

Role:

Ron Klain served as White House Chief of Staff from January 20, 2021, to February 8, 2023. With decades of political and legal proximity to Former President Joseph R. Biden Jr., Klain was not merely a staffer—he was a trusted advisor, strategist, and operational enabler for one of the most consequential presidencies in modern U.S. history. He played a central role in White House decision-making, personnel placement, crisis coordination, and, most critically, narrative control. His tenure encompassed the immediate aftermath of the 2020 election interference, the suppression of Hunter Biden laptop evidence, and the early management of federal investigations tied to Rosemont Seneca Partners, LLC (RSP-LLC)—the firm at the heart of the Pennsylvaniarooted criminal enterprise now under investigation in multiple jurisdictions.

Klain was uniquely positioned to oversee and shield this enterprise. Through strategic access, he helped insulate Rosemont Seneca-related actors from scrutiny, including Robert H. Biden and others under potential indictment. He further empowered RICO co-defendants within the Executive Branch and the Department of Justice, weaponizing institutional silence to protect the President, suppress whistleblowers, and obstruct lawful investigations.

Alleged Offenses:

- Obstruction of Justice
- Conspiracy to Defraud the United States
- RICO Participation and Facilitation

- Suppression of Evidence Tied to National Security
- Political Persecution Through Abuse of Federal Authority
- Criminal Conspiracy to Cover Up Pennsylvania-Based Financial Crimes Tied to Rosemont Seneca Partners, LLC
- Material Support for Terrorism (Foreign & Domestic)
- Financial Crimes & Money Laundering
- Border Invasion Facilitation & Social Security Fraud
- Fraudulent Election Practices & Voter Manipulation
- The Border Crisis & Its Consequences

References: See Joseph R. Biden, Jr.'s PA2 and USC2 for detailed information on Ronald A. Klain's role in border invasion facilitation and related crimes, tied to the broader failure of Biden's border policies and immigration enforcement.

Key Evidence:

- Political Role in the 2020 Election Interference: Klain was deeply involved in Biden's 2020 campaign, overlapping with the now-infamous laptop cover-up orchestrated through former intelligence officials. If he participated in coordinating, endorsing, or weaponizing the 51-intelligence-officer letter, his legal exposure is significant.
- Concealment of Rosemont Seneca Operations: As White House Chief of Staff, Klain had the authority and responsibility to initiate internal ethics reviews or refer RSP-related conduct to the DOJ. He did neither. Instead, he empowered the network, placing several signatories of the laptop cover-up letter into White House roles and national security positions.
- **Proximity to the August 8, 2022, Mar-a-Lago "Home Invasion":** This raid occurred on the 53rd anniversary of the August 8, 1969 Manson Family murders—an event known for symbolically ending the Kennedy dynasty. The choice of date, when paired with Klain's strategic role, raises serious questions about symbolic timing, targeted intimidation, and ritualized Deep State messaging.
- UPenn Office Cover-Up: Ron Klain worked closely with Former President Joseph R. Biden Jr., Robert H. Biden, Antony J. Blinken, and Jeffrey D. Zients during the period when classified documents were improperly stored at the Penn Biden Center for Diplomacy and Global Engagement in Philadelphia. This office—funded in part by Chinese interests—served as a strategic hub for concealing intelligence materials and shielding the Biden family's financial ties. While not geographically located within the Rosemont Seneca Corridor, the UPenn office played a central role in extending the Rosemont Network's influence across Pennsylvania. The concealment of documents at this location helped protect the network's financial operations, many of which trace back to Pennsylvania-based entities like Rosemont Seneca Partners, LLC.
- Suppression of Pennsylvania Financial Crimes: Klain had direct access to ongoing intelligence regarding Robert H. Biden's involvement in RSP-LLC and its associated entities. The concealment of this information—especially as it relates to Rosemont's operations in Pennsylvania—places him at the center of a criminal conspiracy with jurisdictional implications for the Commonwealth.

Jurisdictional Relevance to Pennsylvania:

RSP-LLC and its affiliated Rosemont entities operated extensively within Pennsylvania, including business filings, banking relationships, and potential shell companies headquartered or routed through the state. By suppressing evidence and obstructing investigation into these operations, Klain interfered with Pennsylvania's sovereign right to investigate financial crimes, racketeering, and political corruption tied to its jurisdiction.

Statutory Violations – Pennsylvania & Federal Pennsylvania Statutes:

18 Pa.C.S. § 903	Criminal Conspiracy – Agreement to engage in conduct constituting a crime, including coordination with others to conceal criminal activity.
18 Pa.C.S. § 902	Criminal Solicitation – Commanding, encouraging, or requesting another person to engage in criminal conduct.
18 Pa.C.S. § 4911 18 Pa.C.S.	Tampering with Public Records or Information – Knowingly falsifying or concealing public records or documents. Official Oppression – Misusing authority to deny individuals constitutional rights
§ 5301	under color of law.
18 Pa.C.S. § 911	Corrupt Organizations (PA RICO) – Participating in or aiding a criminal enterprise with a pattern of illegal activity.

Federal Statutes:

18 U.S.C.	Conspiracy to Defraud the United States – Conspiring to obstruct the lawful
§ 371	functions of government through deceit or dishonest means.
18 U.S.C.	Obstruction of Justice - Tampering with or influencing witnesses, evidence, or
§ 1512	legal proceedings.
18 U.S.C.	Deprivation of Rights Under Color of Law – Willfully subjecting any person to the
§ 242	deprivation of constitutional rights.
18 U.S.C.	False Statements – Knowingly and willfully falsifying, concealing, or covering up
§ 1001	material facts in federal matters.
18 U.S.C.	Election Interference – Using official authority to interfere with or affect the
§ 595	nomination or election of candidates.
18 U.S.C.	Racketeer Influenced and Corrupt Organizations (RICO) – Engaging in
§ 1962	racketeering activity through an enterprise impacting interstate commerce.

Sovereign Immunity Consideration - Ron Klain

Sovereign immunity does not apply to Ron Klain. His acts—if proven—were not discretionary functions of his role but intentional misconduct intended to protect a criminal network, suppress evidence, and obstruct law enforcement. His role in insulating Pennsylvania-based financial crimes tied to RSP-LLC, and his participation in broader RICO operations involving targeted

political suppression, place him firmly outside the bounds of lawful immunity protections under both Pennsylvania law and the federal Bivens framework.

Defendant Profile: Jeffrey D. Zients

White House Chief of Staff (2023–2025) | Former COVID Czar | Alleged Rosemont Network Strategist and Suppressor of Evidence

Role:

Jeffrey D. Zients served as **White House Chief of Staff** from **February 8, 2023** through the end of Former President Joseph R. Biden Jr.'s presidency. Prior to this appointment, he was the administration's **COVID-19 Response Coordinator** and a prominent figure in technocratic planning, institutional control, and cross-agency coordination.

Zients brought with him a background steeped in management consulting (McKinsey & Company), Big Tech (Meta/Facebook board member), and private equity, making him uniquely qualified to stabilize and conceal complex operations within the Executive Branch—including those tied to financial fraud, classified intelligence suppression, and political interference.

His transition to Chief of Staff placed him at the heart of the Rosemont-aligned infrastructure during a time of escalating criminal exposure: the Penn Biden Center scandal, the \$6 billion Iran deal, the 10/7 Hamas massacre, and the Biden administration's collapse following the attempted assassination of Donald J. Trump.

■ Alleged Offenses:

- Obstruction of justice
- Criminal conspiracy to conceal classified materials
- Participation in ongoing racketeering under RICO
- Use of executive authority to suppress evidence tied to national security
- Shielding foreign-tied financial operations involving Robert H. Biden
- Aiding and abetting political incitement through dereliction of oversight
- Border Invasion Facilitation & Social Security Fraud
- Fraudulent Election Practices & Voter Manipulation
- The Border Crisis & Its Consequences

References:

See Joseph R. Biden, Jr.'s PA2 and USC2 for detailed information on Jeffrey D. Zients' role in border invasion facilitation and related crimes, tied to the broader failure of Biden's border

Key Evidence:

■UPenn Office Cover-Up (Penn Biden Center)

Zients was in office during the fallout and suppression effort involving classified documents stored at the Penn Biden Center—a site partially funded through Chinese-linked interests. His White House team participated in damage control efforts, obstructed timelines, and concealed who had access to the office

This operation, deeply tied to Robert H. Biden and other Rosemont operatives, suggests Zients' participation in a deliberate concealment structure tied to national security violations and financial corruption.

Rosemont Network Insulation

As Chief of Staff, Zients had full oversight of White House personnel, legal coordination, and crisis management. He did **not initiate any investigation into Rosemont-linked officials**, nor refer potential crimes to DOJ. Instead, **he protected the network**, oversaw silent removals, and ensured **no public accountability for internal corruption**.

Proximity to Hunter Biden Protection Operations

Zients played a direct role in **preserving plausible deniability** for the President's family. He is alleged to have coordinated **media narratives and classified access pathways** to prevent further fallout from the Robert H. Biden laptop and IRS whistleblower complaints.

Strategic Timing of Appointment

Zients became Chief of Staff just one month after Biden's secretive mishandling of classified documents at UPenn became public. His appointment served as a damage control maneuver, allowing for full-scale narrative lockdown and operational suppression.

Concealment During the \$6B Iran Transfer and 10/7 Massacre

Zients was the **White House nerve center** when Biden released \$6B to Iran on 9/11/2023 and **remained silent when Hamas launched its attack** on October 7. He did not alert Congress, nor did he recommend the freezing of funds. His inaction reinforces complicity in **material support for terrorism** and **seditious dereliction** of national duty.

Jurisdictional Relevance to Pennsylvania:

- Zients played a direct role in suppressing investigations into Rosemont Seneca Partners, LLC, whose financial operations trace directly to Pennsylvania.
- His coordination of the UPenn cover-up, a Philadelphia-based office, places this
 federal conspiracy directly within the jurisdiction of Pennsylvania courts and
 prosecutors.

• 18 U.S.C. § 1962 – Racketeer Influenced and Corrupt Organizations (RICO)

→ Participating in a criminal enterprise whose illegal activities impact interstate and international commerce.

Sovereign Immunity Consideration – Jeffrey D. Zients

Zients' misconduct cannot be shielded by executive privilege or sovereign immunity:

- Misconduct was deliberate, not discretionary.
- His actions involved the **concealment of criminal activity**, not lawful governance.
- His proximity to the **Rosemont Network's financial operations and Penn Biden cover- up** places him in **active participation** rather than neutral administration.
- He operated in a **post-awareness environment**, continuing concealment after classified document crimes had been revealed.
- Multiple RICO and conspiracy charges override any civil service immunity claims under Bivens precedent and state constitutional standards.

Defendant Profile: Antony J. Blinken

- Role: Former U.S. Secretary of State under Joseph R. Biden. A principal architect of the 2020 intelligence community interference letter and a key actor in the coordinated suppression of material evidence related to Hunter Biden's foreign financial entanglements.
- As a senior adviser to the Biden campaign, Blinken personally initiated the Robert H. Biden laptop cover-up letter, prompting former CIA Director Michael Morell to gather 51 intelligence officials to publicly declare the laptop to be "Russian disinformation."
- As Secretary of State, Blinken continued to enable foreign policy decisions that benefited the Rosemont Network, while obstructing investigations into its financial crimes.

Alleged Offenses

- Election Interference & Conspiracy
- Obstruction of Justice
- Aiding & Abetting Material Support for Terrorism (9/11/2023 Iran-Hamas pipeline)
- Conspiracy to Commit Financial Crimes
- RICO Violations
- Border Invasion Facilitation & Social Security Fraud

Key Evidence

- Orchestrating Election Interference with PA Implications
- As Biden's Secretary of State, Blinken was directly involved in the **Robert H. Biden laptop cover-up**, ensuring that evidence of PA-based financial crimes (RSP dealings) was suppressed before the 2020 election.
- His role in the letter signed by **51 intelligence officials** is part of a broader **RICO conspiracy** that influenced **Pennsylvania voters**.
- Orchestrated the Robert H. Biden Laptop Cover-Up
- Blinken prompted **Michael Morell** to draft the infamous intelligence letter falsely claiming the laptop was "Russian disinformation."
- This proves he actively worked to suppress evidence of **Biden's corruption** to interfere in the **2020 election**.
- **Coordinated Election Interference with Intelligence Officials**
- Leveraged his deep intelligence community ties to ensure **Biden's crimes** were hidden while **Trump** was targeted.
- **■** Weaponized U.S. Foreign Policy to Protect the Rosemont Network
- Played a key role in diplomatic maneuvers that financially and politically benefited the **Rosemont Network**, including:
- Unfreezing \$6 billion to Iran on 9/11/2023—a move that directly enabled the Hamas terror attack on Israel on 10/7/2023.
- **○** Complicity in the 9/11/2023 Funding Pipeline & Hamas Attack (Terrorism Charges)
- On 9/11/2023, Blinken orchestrated the unblocking of \$6 billion in Iranian funds.
- Less than 30 days later (10/7/2023), **Hamas** launched the deadliest attack on the Jewish people since the Holocaust.
- While Biden's administration claimed the funds were for "humanitarian use," **Iran** publicly boasted that they would use the money however they pleased.
- This is a textbook case of **material support for terrorism**—Blinken helped finance a known enemy of Israel.
- His role in shaping foreign policy decisions directly contributed to this act of terrorism.

- Suppressed Investigations & Intelligence That Could Have Exposed RSP-LLC
- Under Blinken's leadership, the **State Department** obstructed efforts to investigate **Biden's foreign financial crimes**.
- Aided the Conditions That Led to the Butler Assassination Attempt
- By maintaining intelligence cover-ups and obstructing the release of **Biden's illegal** activities, Blinken created an environment where **political violence** became the logical next step.

Sovereign Immunity Assessment - Antony J. Blinken
Does Sovereign Immunity Apply to Blinken?
No. While Blinken was Secretary of State , his acts—if proven to be criminal—fall outside the protections of sovereign immunity.
Election interference, obstruction of justice, and material support for terrorism are not protected acts.
Pennsylvania and federal RICO statutes pierce sovereign immunity for officials engaged in corrupt organizations.

Defendant Profile: William J. Burns

financial conditions for the 10/7/23 Hamas massacre.

- Role: Director of the Central Intelligence Agency (CIA) under Joseph R. Biden; responsible for global intelligence operations and interagency coordination; directly implicated in the approval and concealment of the \$6 billion transfer to Iran on September 11, 2023—funds which emboldened and enabled the October 7, 2023 Hamas terrorist assault on Israel.
- Burns appears to have had foreknowledge of Hamas's October 7, 2023, attack but still allowed Biden's \$6B Iran funds release on 9/11/23.
- This was not an intelligence failure—it was a Deep State maneuver to ensure Hamas had the resources to launch its invasion of Israel.
- The 9/11/23 event was one of many hidden 9/11 attacks—a scheduled financial strike to fund Iran's nuclear program and the 10/7 massacre, with the bloodshed to follow, thousands of miles away.

- Pennsylvania Violations (Pa.C.S.)
- 18 Pa.C.S. § 902 Criminal Solicitation (Allowed the Iran deal while knowing Hamas's intent)
- 18 Pa.C.S. § 903 Criminal Conspiracy (Coordinated with Biden & Deep State actors to empower Hamas)

- 18 U.S.C. § 2381 Treason (Providing aid to a foreign adversary) (Burns knowingly facilitated an enemy attack)

■ 18 U.S.C. § 1512 – Obstruction of Justice (Failure to act on available intelligence warning of an imminent attack)

Findings & Supporting Evidence

- Nummary of Burns' Role in Hamas's 10/7/23 Attack
 - The CIA had intelligence that Hamas was planning an operation for over two years.
 - Burns, as the top U.S. intelligence official, had to know the Iran funds release (9/11/23) would be used for Hamas's invasion.
 - The \$6B was released just in time for Hamas to complete its war preparations.
 - This was not an accident or policy decision—it was an intentional act to fund terrorism.
 - By allowing the transfer, Burns ensured Hamas had the resources for its 10/7 attack.

Sovereign Immunity Assessment - William J. Burns

- William Burns cannot invoke Sovereign Immunity (SI) to escape prosecution.
- Sovereign Immunity does not apply when an official provides material support to terrorists.
- The Iran Funds Release (9/11/23) was not an act of governance—it was an act of enabling a foreign attack.
- PA RICO and federal anti-terrorism laws override any immunity claim.
- Deep State operatives involved in criminal actions can be prosecuted under both state and federal law.
- Reference: BB10 Sovereign Immunity Exhibit This document outlines why Burns' actions place him outside any SI protections.
- Final Verdict: Burns Was a Key Figure in Hamas's Funding & Attack Preparation
- He oversaw CIA intelligence operations and had access to Hamas's planning details.
- He allowed the Iran funds release despite knowing its direct impact on Hamas's military efforts.
- This was a scheduled financial attack on 9/11/23, ensuring Hamas had the resources it needed.
- Burns must be prosecuted under both Pennsylvania and U.S. law.

William Burns' actions directly contributed to Hamas's attack on Israel. This was not negligence—this was intentional. ■

Defendant Profile: Peter P. Buttigieg

Role: Former U.S. Secretary of Transportation under President Joseph R. Biden. Buttigieg oversaw the nation's infrastructure, freight logistics, and transportation safety during one of the most chaotic logistical periods in modern history—the **2021–2023 supply chain crisis**.

Rather than rising to the moment, Buttigieg took **extended paternity leave** in late 2021 as cargo ships stalled offshore, baby formula and medical supplies became scarce, and **tractor parts failed to reach America's farms**, halting agricultural output. This dereliction of duty left millions of Americans vulnerable during a national emergency.

His failure to return during this crisis—compounded by his later negligence during the **East Palestine disaster**—is emblematic of a broader pattern: "**Me First, America Last.**" This personal prioritization over public duty fits the behavioral mold of the Rosemont Network, which rewards loyalty to globalist or ideologically aligned outcomes—even when they harm Americans.

Alleged Offenses:

- Dereliction of Duty During National Emergency
- Gross Negligence in Transportation Crisis Management
- Abuse of Federal Infrastructure Funding Channels
- False Public Statements and Obstruction of Disaster Transparency
- Possible Symbolic Signaling Through "False Flag" Events
- Participation in the Rosemont Network's Strategic Sabotage Operations
- Border Invasion Facilitation & Social Security Fraud
- Fraudulent Election Practices & Voter Manipulation
- The Border Crisis & Its Consequences

Reeferences:

• See Joseph R. Biden, Jr.'s PA2 and USC2 for detailed information on Peter P. Buttigieg's role in border invasion facilitation and related crimes, tied to the broader failure of Biden's border policies and immigration enforcement.

Federal Violations (U.S.C.)

■ 18 U.S.C. § 371 – Conspiracy to Defraud the United States

Strategic mismanagement of federal infrastructure and emergency response to destabilize U.S. logistics and mislead oversight bodies.

■ 18 U.S.C. § 1001 – False Statements & Omissions

Suppression or misrepresentation of key safety findings regarding the East Palestine disaster and other transport-related failures.

■ 18 U.S.C. § 1519 – Obstruction of Justice

Deliberate delay or obstruction in launching formal investigations into high-risk infrastructure failures.

■ 18 U.S.C. § 1956 – Money Laundering

Potential diversion or misuse of infrastructure grants and funds—some possibly tied to Rosemont Network affiliates or special interest channels.

Pennsylvania Violations (Pa.C.S.)

■ 18 Pa.C.S. § 302 – Criminal Negligence

Willful inaction in transportation oversight, including delayed response to catastrophic failures impacting Pennsylvania residents.

■ 18 Pa.C.S. § 5301 – Official Oppression

Abuse of office in selectively applying infrastructure support, while allowing regions in crisis to suffer due to political or strategic considerations.

■ 18 Pa.C.S. § 903 – Criminal Conspiracy

Collaborated with political operatives and corporate actors to cover up the severity and implications of multiple infrastructure disasters.

■ 18 Pa.C.S. § 911 – Corrupt Organizations (PA RICO Act)

Operated in conjunction with known Rosemont-affiliated networks to misallocate resources, cover failures, and maintain elite political protection.

Sovereign Immunity Assessment – Peter P. Buttigieg

Buttigieg cannot invoke sovereign immunity for the following reasons:

- Actions Outside the Scope of Official Duties: If proven that he deliberately withheld critical federal action during a nationwide infrastructure emergency, his behavior falls outside the protected boundaries of discretionary executive function.
- Participation in Criminal Conspiracy: Buttigieg's coordination with other federal actors to suppress investigations or strategically manipulate infrastructure outcomes may qualify as a RICO conspiracy, which voids immunity protections.
- Negligence Resulting in Civilian Harm: His failure to respond adequately to national crises—including the supply chain collapse and East Palestine disaster—resulted in material harm to American citizens and therefore disqualifies him from protections under qualified immunity.
- Cover-Up and Misrepresentation: Any provable false statements or omissions regarding federal oversight, safety failures, or Rosemont Network involvement eliminate sovereign protections.

Findings & Supporting Evidence

- The Supply Chain Crisis
- During Buttigieg's tenure, cargo ships were stalled offshore, tractor parts were unavailable, and factories and hospitals faced critical shortages.
- Instead of prioritizing national recovery, Buttigieg remained absent for months on paternity leave—refusing to return despite the growing crisis.
- His failure left farmers, truckers, medical supply chains, and infant care providers without recourse, impacting millions of Americans.
- The East Palestine Train Derailment (2/3/2023)
- Released hazardous vinyl chloride gas near the PA border.
- The name "East Palestine" became national news just before Biden's \$6 billion Iran deal (on 9/11/2023), which was followed by the **October 7 Hamas terror attacks in Israel**.
- Buttigieg's delayed response and dismissive tone led many to suspect the disaster was not merely mishandled—but deliberately used as **symbolic signaling**, in line with Rosemont Network messaging.

Defendant Profile: Merrick B. Garland

Role: U.S. Attorney General under President Joseph R. Biden. Garland was directly responsible for overseeing critical DOJ actions, including the politically motivated raid on Mara-Lago on August 8, 2022. He is further implicated in covering up national security, financial

crimes, and corruption linked to the Rosemont Network, obstructing investigations, and shielding co-conspirators within the administration.

Alleged Offenses:

- Dereliction of Duty in National Security Oversight
- Obstruction of Justice
- Political Persecution and Misuse of Law Enforcement
- Protection of Criminal Co-Conspirators
- Facilitation of Border Crisis and Social Security Fraud
- Financial Crimes and Money Laundering Cover-Up
- Involvement in Fraudulent Election Practices and Voter Manipulation
- Failure to Act on Border Collapse and Immigration Violations
- Failure to Investigate Rosemont Network Ties to Border Invasion Facilitation
- Material Support for Terrorism through Financial Facilitation

- 18 U.S.C. § 1962 RICO (Racketeer Influenced & Corrupt Organizations Act) (Collusion between DOJ and political interests to neutralize opposition)
- 18 U.S.C. § 1951 Hobbs Act (Political Corruption & Extortion) (Using federal power to interfere in elections and political opposition)

Findings & Supporting Evidence

- Nummary of Garland's Role in the Mar-a-Lago Raid (8/8/22)
 - The **DOJ** authorized a highly unusual, politically charged raid on the home of a former President and active political candidate.
 - Trump's Secret Service detail was present and armed, meaning any miscommunication could have triggered violence.
 - This was not standard law enforcement—it was a highly coordinated, high-risk federal action against a political opponent.
 - Whether intentional or reckless, Garland's actions placed Trump in serious danger.
 - The operation shared characteristics with "Swatting" tactics, which are known to create unnecessary armed confrontations.
- Garland's Cover-Up of Biden & the Rosemont Network
- Blocked DOJ Investigations Into Hunter Biden → Garland actively interfered with IRS and FBI whistleblower efforts to expose Rosemont Seneca's financial corruption, particularly through the suppression of key evidence and delaying investigations into Biden family ties with foreign entities.
- Manipulated Federal Prosecutions → Garland delayed or suppressed legal actions against the Biden Crime Family while aggressively targeting Trump's allies. This tactic allowed the continued operation of the Rosemont Network while hindering investigations into Biden's financial activities.
- 🌌 🔥 Garland's DOJ Was Used as a Weapon
- Failed to Investigate Kimberly Cheatle's Incompetence → Despite significant security failures under Cheatle's leadership—such as the Butler shooting on July 13, 2024, and the Mara-Lago raid on August 8, 2022—Garland took no action to investigate her leadership. Congress uncovered critical issues with Cheatle's handling of these events, yet Garland failed to appoint a special counsel to conduct an independent investigation.
- **Suppressed Crucial Investigations Related to the Rosemont Network** → Garland played a

key role in shielding Biden and his associates from scrutiny, allowing the criminal activities of the Rosemont Network to continue unchecked.

Failure to Pursue Legal Action or Accountability → Garland's refusal to investigate the link between Biden's rhetoric and the shooting in Butler, PA, represented a dereliction of duty. Given the explosive political nature of the situation, a special counsel was urgently needed to ensure an independent investigation. However, Garland failed to act..

Garland's DOJ & the 51 Intelligence Officials Cover-Up

- Garland played a direct role in shielding the 51+9 Intelligence Officials' fraudulent cover-up of Hunter Biden's laptop—which ensured Biden's fraudulent victory in 2020.
- The letter falsely labeled Hunter Biden's laptop as 'Russian disinformation,' preventing legal scrutiny into Rosemont Seneca's financial crimes.
- By suppressing this evidence, Garland's DOJ enabled the criminal financial networks of RSP-LLC to continue operating beyond 2020.
- This was a calculated, high-level conspiracy to obstruct justice, shield the Rosemont Network, and silence political opposition.
- When deception was no longer enough, these same intelligence operatives escalated tactics—from cover-up to political lawfare and reckless use of federal force.

Sovereign Immunity Assessment - Merrick B. Garland

- Merrick Garland cannot invoke Sovereign Immunity (SI) to escape prosecution.
- Sovereign Immunity does not apply when an official commits acts outside the legal scope of their duties.
- The Mar-a-Lago Raid (8/8/22) was not a routine enforcement action—it was a reckless, politically driven operation that created a serious risk of violence.
- Obstruction of Justice, Criminal Conspiracy, and Political Targeting are not protected actions under SI.
- Pennsylvania law explicitly allows prosecution of federal officials involved in organized crime (18 Pa.C.S. § 911 PA RICO).
- **DOJ** corruption under Garland was not an act of governance—it was a criminal enterprise.
- Reference: BB10 Sovereign Immunity Exhibit This document outlines why Garland's actions place him outside any SI protections.
- Final Verdict: Garland Recklessly Endangered Trump in a High-Risk Political Raid

 He authorized and oversaw a politically charged, reckless law enforcement action.

- He knowingly created the conditions for a possible violent confrontation.
- His DOJ obstructed investigations before and after the raid, raising further questions.
- He personally ensured Trump was targeted both physically (in a dangerous raid) and legally (through lawfare).
- Garland's DOJ must be investigated under both Pennsylvania and U.S. law.
- Merrick Garland's reckless actions weaponized the DOJ and placed a former President's life in jeopardy.

Defendant Profile: Avril D. Haines

Role: Director of National Intelligence (DNI) under President Joseph R. Biden; Haines had both the authority and obligation to ensure accurate, timely intelligence reached the proper oversight channels. Instead, she became a **central intelligence gatekeeper for the Rosemont Network**, suppressing whistleblowers, obstructing investigations, and controlling the flow of politically sensitive intelligence to shield Biden-aligned criminal networks.

Alleged Offenses:

- Obstruction of Justice
- Election Interference
- Criminal Conspiracy & Evidence Suppression
- RICO Violations
- Aiding & Abetting Material Support for Terrorism
- Facilitation of Border Crisis and Social Security Fraud
- Financial Crimes and Money Laundering Cover-Up
- Involvement in Fraudulent Election Practices and Voter Manipulation

- 18 U.S.C. § 242 Deprivation of Rights Under Color of Law

Findings & Supporting Evidence

- Summary of Haines's Role in Intelligence Suppression & Foreign Coordination Haines was a signatory of the 2020 "Russian disinformation" letter, falsely discrediting Hunter Biden's laptop and obstructing justice before the 2020 election.
- Upon entering office, she was promoted to DNI, giving her full control of all national security intelligence—used not for protection, but for suppression.
- Haines ensured **no 9/11 whistleblowers** or investigators with knowledge of the \$6B Iran—Hamas link were allowed inside the White House orbit.
- She failed to sound the alarm on the 9/11/23 transfer of \$6 billion to Iran, which directly enabled the **October 7 Hamas terror attack**—making her an accessory through omission, suppression, and concealment.
- RSP-LLC intelligence was filtered or neutralized, leaving investigators blind to the Rosemont Network's financial activities in Pennsylvania.
- Her signature on the 2020 laptop cover-up letter served as a **loyalty test**, earning her the role of "trusted to be untrustworthy."

Sovereign Immunity Assessment - Avril D. Haines

- As DNI, Haines's actions—when proven to be outside the lawful execution of her duties—fall outside any sovereign immunity protections.
- Under both **Bivens doctrine** and **Pennsylvania law**, federal actors involved in organized criminal activity, including obstruction and conspiracy, may be prosecuted.
- Her role in suppressing intelligence and protecting foreign terrorist-linked regimes (Iran-Hamas pipeline) removes all claim to legal immunity.
- **Pennsylvania Jurisdiction Established** Rosemont Seneca Partners, LLC (RSP-LLC) is Delaware-registered but operated with financial and political intent in Pennsylvania.
- Avril Haines's obstruction of RSP-related investigations in PA constitutes conspiracy and official oppression within the Commonwealth.

Her suppression of intelligence about **terror-related financing** and election interference ties her directly to harms suffered by Pennsylvanians.

Final Assessment: Avril Haines weaponized the U.S. intelligence community to protect a criminal political network, suppress whistleblowers, enable foreign adversaries, and dismantle electoral integrity through calculated deception. She is not protected by her office—she is accountable to the law.

Defendant Profile: Kamala D. Harris

Role: Vice President of the United States (2021–Present). Kamala Harris was entrusted with managing America's southern border crisis, yet her policies and symbolic messaging led to historic border breaches, cartel empowerment, fentanyl trafficking, and violent criminal activity in Pennsylvania and beyond. In 2023, Harris and her senior staff were exposed for holding secret internal meetings to prepare for President Biden's possible death in office—drafting transition scenarios, identifying "friendly" federal judges for an emergency swearing-in, and coordinating political strategy to position Harris as the Democratic nominee. This was not lawful succession—it was a covert power consolidation effort.

Alleged Offenses:

- Criminal Conspiracy & Racketeering
- Material Support for Terrorism
- Dereliction of Duty & Executive Malfeasance
- Political Subversion & Internal Coup Preparation
- Obstruction of Justice
- Endangerment of Public Welfare (Drug Trafficking, Border Collapse)
- Facilitation of Border Crisis & Social Security Fraud
- Failure to Act on Border Collapse and Immigration Violations
- Financial Crimes & Money Laundering Cover-Up
- Border Invasion Facilitation & Social Security Fraud
- Fraudulent Election Practices & Voter Manipulation
- The Border Crisis & Its Consequences

References:

See Joseph R. Biden, Jr.'s PA2 and USC2 for detailed information on Kamala D. Harris' role in border invasion facilitation and related crimes, tied to the broader failure of Biden's border policies and immigration enforcement.

Overview of Criminal Liability Harris's conduct went far beyond inaction—it was intentional, public, and systemic. From coded rhetoric to symbolic visits, she participated in an open invitation strategy that emboldened traffickers and terrorists. She failed to secure the border, obstructed accountability, and contributed to a coordinated criminal conspiracy operating through the Rosemont Network. Her actions caused real-world harm—including overdose deaths, gang activity, and the murder of Pennsylvania residents.

Statements and Symbolism as Active Participation

- "I haven't been to Europe either." When pressed on why she hadn't visited the border after being named to oversee immigration, Harris mocked the crisis—downplaying urgency in June 2021.
- The El Paso Visit Symbolic, not strategic. "El Paso" translates to "The Gateway." Her visit sent a narrative message: *You're welcome here*.
- Guatemala Messaging "Do not come" was immediately contradicted by: "We will enforce our laws and treat people with dignity." The contradiction was received globally as a green light.
- Specific Incidents Real-World Consequences of Harris's Border Agenda

"Come, We Welcome You" – Open-Invitation Messaging

Over 10 million illegal entrants surged across the border after Trump-era controls were dismantled. Cartel networks echoed Harris's messaging as recruitment propaganda.

Philadelphia: Ground Zero for the Fentanyl Collapse

In 2022, Philadelphia led all U.S. cities in overdose deaths per capita—over 1,400 deaths, with 83% linked to fentanyl. These substances were trafficked across the open border Harris failed to secure.

■ Danilo Cavalcante – A Preventable Pennsylvania Murder

An illegal immigrant convicted of murder escaped prison in Chester County, triggering a costly manhunt. This tragedy would not have occurred under proper immigration enforcement.

■ Sheriff Jim Ott – A Son Lost to Fentanyl

In 2024, Blair County Sheriff Jim Ott stated: "If the border had been secure, my son would still be alive today." This personal loss underscores the national consequences of Harris's deliberate dereliction.

MS-13 Protection in Sanctuary Jurisdictions

Harris's alignment with sanctuary city policies allowed violent gang members, including MS-13, to embed in Pennsylvania communities—later removed only after criminal exposure.

Applicable Legal Violations

- Federal Statutes (U.S.C.)
- 18 U.S.C. § 242 Deprivation of Rights Under Color of Law
- Harris used her position to suppress border enforcement and deny lawful protections to U.S. citizens.
- 18 U.S.C. § 2339A Providing Material Support to Terrorists
- Her refusal to secure the border enabled cartel operations and the trafficking of terrorist-linked materials.
- 18 U.S.C. § 371 Conspiracy to Defraud the United States
- Participated in coordinated efforts to suppress investigations and obstruct immigration enforcement, and later to bypass presidential succession protocol.
- 18 U.S.C. § 2332 Acts of Terrorism Transcending National Boundaries
- Her policies directly enabled the entry of violent cartel actors responsible for transnational killings.
- 18 U.S.C. § 1962 Racketeer Influenced and Corrupt Organizations (RICO)
- Harris played a strategic role in the Rosemont Network, aiding its criminal expansion via non-enforcement at the border.
- **8** U.S.C. § 1324 Bringing in and Harboring Certain Aliens
- Enabled illegal immigration through refusal to enforce federal mandates and resistance to deportation procedures.
- **21** U.S.C. § 841 Distribution of Controlled Substances
- Failed border control allowed massive fentanyl infiltration, resulting in U.S. deaths—especially in Pennsylvania.
- **21** U.S.C. § 848 Continuing Criminal Enterprise (Drug Kingpin Statute)
- Her border failures facilitated the uninterrupted trafficking operations of cartel-aligned fentanyl networks.
- **18 U.S.C.** § 2385 Advocating Overthrow of Government
- Engaged in secret succession planning, bypassing lawful constitutional procedures and exploring extrajudicial paths to power.
- 18 U.S.C. § 1001 False Statements and Omissions
- Concealed transition plans and judicial outreach from executive oversight bodies, enabling unlawful preparation for office takeover.

- Pennsylvania Statutes (Pa.C.S. & 42 Pa.C.S.)
- 18 Pa.C.S. § 902 Criminal Solicitation
- Encouraged illegal entry and actively solicited judicial cooperation to bypass presidential succession protocols.
- 18 Pa.C.S. § 2706 Terroristic Threats
- Her public messaging emboldened traffickers and transnational criminals targeting U.S. citizens.
- 18 Pa.C.S. § 911 Corrupt Organizations (PA RICO)
- Willfully engaged in a criminal enterprise that endangered Pennsylvania residents.
- 18 Pa.C.S. § 2504 Involuntary Manslaughter
- Policies directly contributed to overdose deaths and criminal violence across Pennsylvania.
- 18 Pa.C.S. § 2705 Reckless Endangerment of Another Person
- Nowingly maintained policies that endangered border agents, law enforcement, and the public.
- 18 Pa.C.S. § 4304 Endangering Welfare of Children
- Thousands of minors trafficked through open border policies suffered injury, abuse, or death as a result.
- 18 Pa.C.S. § 5301 Official Oppression
- Abused her authority to pursue unconstitutional advancement toward executive power.
- **42 Pa.C.S.** § **8318** Liability for Terrorist Acts
- Open-border policies enabled material support for foreign and domestic terrorist organizations.
- Sovereign Immunity Assessment Kamala D. Harris
- Harris's actions fall **outside** the scope of protected executive functions. The doctrine of sovereign immunity does **not** protect acts involving:
- Criminal conspiracy
- Material support to terrorist networks
- Intentional endangerment of citizens

Her rhetoric and strategic inaction were not policy errors—they were deliberate participation in a criminal enterprise. Under **Pennsylvania law** and **federal RICO exceptions**, she is **prosecutable**.

Status: Charged Defendant under multiple Pennsylvania and federal criminal statutes.

Defendant Profile: John F. Kerry

Role: Former Secretary of State, former U.S. Special Presidential Envoy for Climate (Climate Czar), and senior Democratic Party figure with deep influence over U.S. foreign policy and elite fundraising. Kerry used his diplomatic platform to shield Rosemont Seneca's criminal operations and helped structure international financial agreements that ultimately provided material support to terrorist regimes.

Sovereign Immunity Assessment - John F. Kerry

- Sovereign Immunity does not apply.
- Kerry's actions fall outside the protections of official discretionary conduct.
- Material support for terrorism and RICO violations pierce all immunity defenses.

Final Verdict: Kerry Must Be Prosecuted

- Kerry structured policies that financed terrorism and protected Rosemont's criminal network.
- His diplomatic, financial, and political protection enabled RSP to operate unchecked.
- His continued foreign interference while Climate Czar constitutes shadow statecraft in violation of U.S. law.
- **Status**: Charged Defendant under multiple Pennsylvania and federal criminal statutes.

Key Evidence & Supporting Findings

Nole in the Iran-Hamas Financial Pipeline

- Kerry helped structure the 2015 Iran Nuclear Deal, which laid the groundwork for Biden's decision to unfreeze \$6B on 9/11/2023.
- That transfer empowered Hamas, which 26 days later executed the largest attack on Jews since the Holocaust.

Rosemont Origin & Pennsylvania Ties

- Kerry's political power and connection to Pennsylvania-based networks gave Rosemont Seneca its foundational credibility.
- While not a formal partner, Kerry provided diplomatic and financial cover for the firm's rise.

Foreign Policy Clout & Butler Proximity

Kerry's policies directly aligned with Biden and Rosemont-linked interests, including events connected to Butler, PA.

Kerry's Role in Shadow Diplomacy

While Climate Czar, Kerry conducted unauthorized diplomatic meetings—violating the Logan Act—and possibly setting financial groundwork for further Rosemont-linked crimes.

The John Heinz Power Shift

- Kerry's ascent followed the death of Senator John Heinz, whose political machine helped launch Kerry's national career.
- This moment marked the transfer of fundraising and influence power that would later enable Rosemont Seneca.

- Contrast with Christopher Heinz
- Kerry's stepson cut ties with RSP citing ethical concerns.
- Kerry did not. He continued shielding the firm's operations, helping it escape scrutiny.

Sovereign Immunity Assessment - Alejandro Mayorkas

- Sovereign immunity does **not** apply.
- Sovereign immunity does **not** protect officials from actions that are criminal, unconstitutional, or beyond their lawful authority.
- Mayorkas' failures—if found to be intentional or negligent to the degree of criminal liability—fall outside the scope of his official duties.
- Since Secret Service failures led to an attempted presidential assassination, these acts may be prosecutable under both Pennsylvania and federal law.

Key Evidence

- The U.S. Secret Service Failed in Butler Mayorkas Was Responsible
- Mayorkas was directly in charge of the agency responsible for Trump's protection.
- The July 13, 2024, assassination attempt in Butler, PA, occurred due to clear security failures, including:
 - Lack of **rooftop snipers** despite precedent for such measures.
 - Inadequate screening for potential threats in elevated positions.
 - **Delays in response time** once the shooting began.
- Roughly one hour before the attack, the Secret Service photographed Thomas Matthew Crooks—labeling him as a person of interest—but failed to act.
- Crooks was able to crawl into position just **45 feet from a government sniper**, without being stopped.
- Secret Service agents assigned to Trump were physically incapable of properly shielding him —a highly irregular assignment that raises serious questions about intent and operational planning.
- By contrast, Biden's security remained at full capacity at all times—showing a deliberate disparity in protection.
- The Failed First Assassination Attempt Mar-a-Lago Raid (8/8/22)
- FBI & DHS had jurisdictional overlap, yet Mayorkas failed to prevent a potential armed standoff between Trump's Secret Service detail and FBI agents.
- The Mar-a-Lago raid nearly led to gunfire between two armed federal agencies, both with "shoot-to-kill" orders—a catastrophic security risk that Mayorkas failed to mitigate.
- If an armed confrontation had occurred, Trump **could have been killed "justifiably"** under the manufactured illusion of a federal security conflict.

- Mayorkas' Obstruction of Congressional Investigations
- **Refused to comply with House subpoenas** related to security failures.
- **Blocked internal DHS audits** into the Secret Service's pre-Butler intelligence handling.
- Congressional testimony from Secret Service officials revealed major security lapses that DHS leadership sought to downplay.
- The Resignation of Secret Service Director Kimberly Cheatle
- Following the Butler rally shooting, Secret Service Director Kimberly Cheatle resigned, admitting "unacceptable failures" in security planning.
- Her resignation was a direct admission that Secret Service leadership failed—Mayorkas, as the official responsible for overseeing the agency, shares in this culpability.

Defendant Profile: Kimberly Cheatle

Role: Director of the U.S. Secret Service (USSS), responsible for presidential candidate protection during the Biden administration.

Alleged Offenses:

- **Criminal Negligence in Presidential Protection**: Failing to protect President Trump during the two assassination attempts, potentially enabling the actions of external actors.
- Reckless Endangerment & Failure to Secure Candidate Safety: Ignoring intelligence and failing to act on obvious threats to Trump's safety.
- Conspiracy to Facilitate Assassination Attempts on Trump: Potential involvement in the orchestration or facilitation of the attacks, whether through negligence, complicity, or active participation in a larger conspiracy.
- Obstruction of Justice: Suppression of evidence related to the assassination attempts, including mishandling key security data and failing to investigate credible threats properly.
- Enabling an Assassination Attempt Through Weaponized Incompetence: Crooks, the shooter, may have been manipulated or brainwashed, facilitated by Cheatle's role in overseeing failing security measures and allowing potential psychological manipulation of an individual in a position to carry out the attack.

- Violations Identified
- Pennsylvania Violations (Pa.C.S.)
- 18 Pa.C.S. § 902 (Criminal Solicitation Failure to Prevent a Crime)
- Cheatle and Secret Service leadership's inaction in the face of **credible threats** constitutes a failure to prevent a foreseeable violent act, leading to the **death of Corey Comperatore** and the **attempted assassination of Trump**.
- 18 Pa.C.S. § 2705 (Reckless Endangerment Creation of a Deadly Situation)
- By removing standard security measures, Cheatle knowingly placed Trump, rally attendees, and law enforcement officers at extreme risk.
- 18 Pa.C.S. § 5301 (Official Oppression Abuse of Authority for Unlawful Purposes)
- The Secret Service willfully neglected its duty to protect a presidential candidate, resulting in a coordinated security failure.

- The deliberate failure to implement basic security measures in Butler was not an accident—it was part of a broader scheme to neutralize Trump.
- 18 Pa.C.S. § 911 (Corrupt Organizations PA RICO Act)
- The Secret Service's role in the systemic failure of security procedures aligns with organized corruption patterns, implicating Cheatle in a larger conspiracy.
- Federal Violations (U.S.C.)
- **18 U.S.C.** § **351** (Attempted Assassination of a Former President)
- Negligence and willful security failures allowed an amateur gunman to fire multiple shots at Trump, resulting in the assassination of Corey Comperatore and the wounding of two others.
- 18 U.S.C. § 242 (Deprivation of Rights Under Color of Law)
- The Secret Service's intentional failure to secure the Butler rally venue deprived Trump of his constitutional right to equal protection under the law.
- **18 U.S.C. § 1962** (RICO Act Violations)
- The coordinated law enforcement failure in Butler was not an accident—it was a pattern of organized corruption designed to create deadly vulnerabilities for Trump while shielding Biden.
- 18 U.S.C. § 2384 (Seditious Conspiracy)
- The Secret Service leadership's refusal to follow standard security procedures, coupled

with the broader law enforcement dysfunction, constitutes a conspiracy to undermine the political process through acts of violence.

Sovereign Immunity Consideration – Kimberly Cheatle

Kimberly Cheatle failed in her duties as Director of the U.S. Secret Service, contributing to a political assassination attempt on a former President. Her inaction and negligence under her leadership were not incidental but part of a broader pattern of obstruction and complicity, enabling the Rosemont Network to operate unchecked.

Sovereign immunity does not apply when a federal official acts outside the scope of their lawful duties—especially when their actions lead to **political violence**, **conspiracy**, or **obstruction of justice**. Cheatle's failure to protect **President Trump**, despite forewarning about regional threats, constitutes a breach of duty, and she is **not protected by sovereign immunity**.

- Key Evidence A Systemic, Weaponized Security Failure
- The Biden Family Received Maximal Protection, Regardless of Threat Level
- Hunter Biden had 18 Secret Service agents assigned to him.
- Ashley Biden had 13 Secret Service agents assigned to her.
- Both retained these protections under Cheatle's leadership even after Biden took office.
- Despite Hunter's history of drug abuse and reckless behavior, the Secret Service continued to allocate disproportionate protection to him.
- Yet Trump, an active presidential candidate facing clear assassination threats, was left exposed in Butler.
- RFK Jr. Was Also Denied Secret Service Protection, Despite Clear Threats
- RFK Jr. formally requested Secret Service protection multiple times.
- His requests were **denied** by the same Secret Service leadership under Cheatle.
- The **Kennedy family has a history of assassinations**, making this denial highly unusual.
- The denial of RFK Jr.'s security request aligns with the deliberate underprotection of Trump.
- Trump's Secret Service Detail Was Intentionally Weakened Using "Weaponized Incompetence"
- Trump's security detail included **agents physically incapable of providing proper protection**.

- Some agents were significantly shorter than Trump, leaving his head and upper body exposed to gunfire.
- Secret Service protocol requires that agents be able to shield, cover, and extract the protectee in an emergency—this was deliberately ignored.
- This contradicts standard Secret Service procedure, which prioritizes agent physical capability in security assignments.
- This was not negligence—this was intentional exposure to danger.

Kimberly Cheatle & The Veil of Incompetence in Butler

- The same tactics used by Wray's FBI—gross negligence to create a lethal failure—were deployed in Butler.
- Cheatle's Secret Service played the same role as the FBI in Mar-a-Lago: engineering an avoidable security collapse.

Security Failures in PA – A Coordinated Neglect of Duty

- Denial of RFK Jr.'s security request was a **preview** of what happened in Butler.
- Ignored **intelligence warnings** regarding security threats at Trump's rally, despite **clear evidence of risks**.
- Failed to assign rooftop snipers, citing absurd logistical reasons that contradict standard Secret Service protocols.

Intentional Security Gaps & Breakdown of Coordination

- Secret Service leadership abandoned its core management role, allowing dangerous miscommunication between agencies.
- Critical protective measures were deliberately omitted, exposing Trump to an easily preventable attack.
- This failure was not random—it follows historical patterns where incompetence is used as a shield to facilitate pre-planned state-aligned operations.

Defendant Profile: Christopher A. Wray

Role: Former Director of the Federal Bureau of Investigation (FBI). Wray oversaw coordinated federal efforts to protect the Biden Crime Family while suppressing evidence, obstructing investigations, and weaponizing federal power against Donald J. Trump. He failed to prevent an armed confrontation during the Mar-a-Lago raid and deliberately concealed Hunter Biden's laptop before the 2020 election.

Alleged Offenses:

- **Election Interference**: Manipulating FBI resources to suppress key information critical to the election outcome, including the Hunter Biden laptop scandal.
- **Obstruction of Justice**: Suppressing key evidence, particularly related to the Biden family and election integrity.
- **RICO Violations**: Participation in a **criminal organization** to manipulate the political process, protect political allies, and undermine federal investigations.
- Attempted Assassination (Mar-a-Lago): Failure to prevent the armed confrontation during the Mar-a-Lago raid, which placed the life of President Trump at risk.
- **Seditious Conspiracy**: Coordinating federal resources for the purpose of political targeting, undermining national security, and engaging in unlawful activities against political opponents.
- Failure to Prevent Coordinated Law Enforcement Breakdown: Failure to prevent the collapse of U.S. border security under his watch, indirectly enabling illegal immigration, human trafficking, and the operation of criminal syndicates.

Key Evidence

Wray's FBI Possessed the Hunter Biden Laptop for Over a Year Before the 51+9 Intelligence Officers' Cover-Up Letter – And He Said Nothing

- **■** The FBI took possession of Hunter Biden's laptop in December 2019.
- By October 2020, when the infamous '51+9 Intelligence Officials' letter was released, falsely claiming the laptop was Russian disinformation, Wray's FBI had already had it for nearly a year.
- Not once did Christopher Wray refute the letter's false claims.

- By failing to publicly correct the record, Wray implicitly validated the letter—effectively making him Signatory #1.
- The deliberate suppression of this information ensured that the American people were deceived before the 2020 election.
- This was not an oversight—it was an intentional act of election interference at the highest level.
- Legal Impact:
- Wray's inaction was not "policy" or discretion—it was deliberate election interference.
- This places his conduct outside the protections of qualified immunity and sovereign immunity.
- The "Circular Firing Squad" Strategy Creating a Coordinated Law Enforcement Breakdown
- Wray, in coordination with Merrick Garland and Joe Biden, and others, engineered a law enforcement crisis by placing multiple armed federal agencies in direct operational contradiction, ensuring:
 - Mass confusion between agencies.
 - Internal friction and miscommunication, preventing a unified security plan.
 - A systemic breakdown in protective protocols, increasing the risk of security failures.
 - This same law enforcement breakdown applied to the Butler security collapse, ensuring:
 - No single agency took full responsibility for Trump's security.
 - Intelligence warnings were ignored or suppressed.
 - Critical security measures (rooftop snipers, hardened perimeters) were missing.
- **Legal Impact:**
- Orchestrating systemic security failures is not protected by any form of legal immunity.
- If these failures resulted in an assassination attempt, Wray can be held criminally liable.
- Authorization of the Mar-a-Lago Raid (8/8/22) The First Assassination Attempt
- August 8, 2022 (8/8/22), Wray authorized an armed FBI raid on Mar-a-Lago with a "shoot-to-kill" directive.
- The date mirrored past Deep State false flag events tied to the Rosemont Network (Manson Murders, Delmont 88, Chappaquiddick).
- The raid's execution was not standard law enforcement—it was an illegal attempt to

neutralize Trump before his 2024 candidacy.

- Had resistance occurred, Trump could have been killed before announcing his reelection bid.
- Legal Impact:
- **Attempted assassination of a former president is a chargeable offense.**
- Federal immunity does NOT protect violent crimes committed under color of law.
- Contradictions in the Secret Service's Role Tactical Failure or Deliberate Endangerment?
- The Mar-a-Lago Raid exposed a dangerous contradiction between the FBI and Secret Service (SS).
- Both agencies had "shoot-to-kill clearance"—yet the FBI arrived in long-gun tactical formations, while the SS was limited to concealed firearms.
- This placed the FBI at a distinct tactical advantage, increasing the risk of a violent confrontation.
- The conflicting directives between agencies heightened the risk of crossfire, ensuring Trump would be vulnerable.
- **Example 2** Legal Impact:
- Creating conditions for an armed confrontation that could result in an assassination is not a "lawful action."
- Wray loses all immunity protections when he engages in reckless endangerment and conspiracy.
- Protection of the Rosemont Network Shielding Biden's Criminal Operations
- Wray's FBI covered up Robert H. Biden's laptop, suppressing evidence of:
 - Foreign collusion
 - Money laundering
 - Bribery tied to Rosemont Seneca Partners, LLC (RSP-LLC).
 - The FBI deliberately ignored financial crimes linked to Rosemont Seneca, allowing Biden's criminal network to operate unchecked.
 - Wray facilitated DOJ coordination to shield Biden while weaponizing federal agencies against Trump.
- Legal Impact:
- Covering up criminal activity while using federal power to target political opponents is

an abuse of office.

This places Wray in direct violation of obstruction laws and removes all immunity protections.

- Violations Identified (Federal U.S.C.)
- 18 U.S.C. § 1519 (Obstruction of Justice Destruction or Concealment of Evidence)
- Charge: Wray's FBI possessed Hunter Biden's laptop for nearly a year yet failed to disclose it, deliberately allowing false narratives about "Russian disinformation" to spread.
- 18 U.S.C. § 371 (Conspiracy to Defraud the United States)
- Charge: By failing to correct the record, Wray actively participated in an election fraud conspiracy by suppressing information that would have altered the 2020 election.
- 18 U.S.C. § 351 (Attempted Assassination of a Former President)
- Charge: The Mar-a-Lago raid, executed with lethal force orders, created conditions where Trump could have been killed.
- 18 U.S.C. § 242 (Deprivation of Rights Under Color of Law)
- Charge: Use of the FBI as a weapon to violate Trump's constitutional rights.
- 18 U.S.C. § 1962 (RICO Act Violations)
- Charge: Wray's coordination with DOJ and intelligence agencies to obstruct justice and target political opponents.
- 18 U.S.C. § 2384 (Seditious Conspiracy)
- Charge: FBI's involvement in undermining a potential presidential candidate using armed federal aggression and election interference.

Sovereign Immunity Assessment – Christopher A. Wray

Christopher Wray, as former Director of the FBI, is not protected by sovereign or qualified immunity due to his direct involvement in criminal conspiracies, election interference, and obstruction of justice. His leadership of the FBI transitioned the agency into a political weapon—placing his actions well outside the bounds of lawful discretionary conduct.

- **Qualified Immunity Does Not Apply**
- Wray violated clearly established constitutional rights.
- Election interference and politically motivated prosecutions are not protected acts.

Sovereign Immunity Does Not Apply

- Sovereign immunity shields agencies, not individual actors engaged in criminal activity.
- Wray's concealment of the Hunter Biden laptop and orchestration of federal cover-ups are prosecutable.

✓ Westfall Act Protections Do Not Apply

- Misconduct outside lawful scope is not protected.
- Wray's actions involved willful deception, suppression of evidence, and tactical endangerment.

▼ RICO Statute Overrides All Immunity Claims

- Wray engaged in enterprise-level corruption under the Rosemont Network.
- RICO allows civil and criminal prosecution regardless of federal position.

Statutory Violations Embedded in Wray's Conduct:

- 18 U.S.C. § 1519 Obstruction of Justice
- 18 U.S.C. § 371 Conspiracy to Defraud the United States
- 18 U.S.C. § 351 Attempted Assassination of a Former President
- 18 U.S.C. § 242 Deprivation of Rights Under Color of Law
- 18 U.S.C. § 1962 RICO Act Violations
- 18 U.S.C. § 2384 Seditious Conspiracy

Defendant Profile: Robert Malley

Role: U.S. Special Envoy for Iran (suspended), Former Obama and Clinton Administration Official

Notable Affiliations: Clinton White House, Obama White House, Biden Administration **Primary Allegations:** Unauthorized classified communications; foreign influence coordination with Iran; subversion of U.S. intelligence protocols; suspected involvement in Signal-based encrypted coordination tied to the 10/7/23 Hamas massacre in Israel.

Summary of Allegations:

Robert Malley is charged with **espionage-related misconduct**, **obstruction of justice**, and **material support of terrorism** through his longstanding ties to Iranian influence networks, unlawful retention of Signal-based communications channels, and strategic involvement in backchannel diplomacy during national security crises.

Pennsylvania Connection (CRITICAL)

Pennsylvania is not just incidental—it is the operational epicenter of the **Rosemont Network**, and the **AI-aligned Bullseye** which enabled the 2/3/23 East Palestine train derailment, the 9/11/23 \$6B transfer to Iran, and the 10/7/23 Hamas Massacre. Malley's conduct ties directly to:

• 2/3/23 – East Palestine Derailment (PA border):

- A symbolic and tactical Target Acquisition rehearsal.
- o The derailment crossed the **Rosemont Seneca Bullseye**, whose axis originates in Rosemont, PA—where a Kennedy sister attended college.

• 9/11/23 – Biden's \$6B Transfer to Iran:

- The very day Adolf Hitler first published his vision for annihilating the Jews in 1923 (Hitler's 9/11).
- o Malley had long pushed for Iranian appearement under the guise of diplomacy.
- He retained contacts and possibly continued encrypted communications (via Signal) with Iranian-aligned operatives even after his security clearance was revoked.

• 10/7/23 – Hamas Massacre of Jews:

- o Just 26 days after the \$6B release.
- SignalGate Exhibit documents that Malley was possibly present on a "classified" White House call after being suspended, undermining Mossad and NSA surveillance.
- His fingerprints are all over the **October 7 execution plan**—ideologically, tactically, and financially.

Pattern of Subversion:

Malley's career reflects a disturbing consistency:

- Under Clinton: Pushed normalization of terrorist actors under the Oslo Accords umbrella
- Under Obama: Key player in the Iran nuclear deal—strengthening Tehran's regime.
- Under Biden: Employed multiple Iranian influence agents, per public reports.
- **Post-Suspension:** Allegedly participated in encrypted communications regarding sensitive matters, in direct violation of federal law and national security norms.

Pennsylvania Statutory Violations (Pa.C.S.)

18 Pa.C.S. § 902 – Criminal Solicitation

Malley is alleged to have encouraged or enabled acts that directly undermined U.S. and allied Israeli national security interests, including actions that emboldened Iranian proxies like Hamas.

His continued engagement with suspected foreign agents after the loss of his clearance suggests indirect solicitation of criminal activity that resulted in violence.

18 Pa.C.S. § 903 – Criminal Conspiracy

By employing individuals within an Iranian influence network while serving as the U.S. Special Envoy, and maintaining communications channels after suspension, Malley appears to have operated within a covert conspiracy to subvert U.S. foreign policy objectives and aid Iranaligned militant operations.

18 Pa.C.S. § 911 – Corrupt Organizations (PA RICO)

Malley's involvement in a sustained, secretive information pipeline—including Signal-based messaging and unauthorized disclosure of classified information—represents participation in a corrupt organization intended to influence U.S. policy and disable allied defenses.

18 Pa.C.S. § 9402 – Terrorism

Malley's potential role in communications that directly preceded the 10/7/23 Hamas massacre—an internationally recognized terrorist act—warrants investigation under Pennsylvania's terrorism statute. The East Palestine derailment and Iran's \$6B financial boost further tie this network to premeditated ideological violence.

18 Pa.C.S. § 7512 – Criminal Use of Communication Facility

Using secure, encrypted platforms like Signal after his clearance was suspended may violate statutes surrounding the unlawful use of communication tools to transmit classified or harmful information.

Federal Statutory Violations (U.S.C.)

18 U.S.C. § 793 – Gathering, Transmitting, or Losing Defense Information (Espionage Act) Malley is suspected of facilitating unauthorized access to classified documents and/or discussions with foreign-connected actors. These disclosures may have enabled adversarial planning that resulted in the loss of civilian life.

18 U.S.C. § 2071 – Concealment, Removal, or Mutilation of Documents

If Malley participated in the deletion or concealment of government records, including those related to Iran or Hamas coordination, he could be in direct violation of this statute—particularly relevant given the destroyed data in the Asif Rahman case.

18 U.S.C. § 371 – Conspiracy to Defraud the United States

Continued advisory activity and strategic influence while under suspension may qualify as conspiracy to defraud the government by hindering lawful operations, inspections, or diplomacy.

18 U.S.C. § 1001 – False Statements

If Malley misled the State Department or other officials about his communications or affiliations

while under investigation, he could be charged with knowingly making false statements to federal agencies.

18 U.S.C. § 2381 – Treason

If the Signal-based communications or intelligence leaks were proven to have directly contributed to American or allied deaths, treason charges would be justified for giving aid and comfort to declared enemies.

18 U.S.C. § 2384 – Seditious Conspiracy

A broader charge under sedition is possible if Malley's actions, in coordination with Iranian-linked agents, aimed to undermine U.S. authority, sow internal division, or facilitate acts of war via proxy terror networks.

Sovereign Immunity Considerations

Robert Malley's potential invocation of sovereign immunity would likely fail under the following principles:

- 1. **Act Outside the Scope of Duty:** Any actions taken after the suspension of his security clearance—especially if on a classified Signal-based call—would not be protected under sovereign immunity.
- 2. **Criminal Acts:** Sovereign immunity does not shield against criminal prosecution, particularly when the acts fall outside authorized diplomatic engagement and involve intentional harm to U.S. interests or citizens.

Foreign Agent Exception: Malley's alleged links to foreign state propaganda networks and potential coordination with non-state actors (like Hamas) fall outside any traditional protections under U.S. law or diplomatic status.

Defendant Profile: Lisa Monaco

Role: As the second-highest official in the U.S. Department of Justice, Lisa Monaco played a central role in overseeing federal investigations and enforcement. In her capacity as Deputy Attorney General, Monaco had a direct influence on the handling of Rosemont Seneca Partners (RSP-LLC) and its financial crimes connected to the Biden family. She acted as a legal firewall, ensuring that investigations into Hunter Biden's activities were obstructed and that whistleblowers were suppressed. Her position gave her the authority to intervene in critical national security matters, including border security and terrorism-related financial investigations, yet she failed to act or obstructed the proper course of justice.

Alleged Violations:

- **Obstruction of Justice**: Prevented investigations into **Rosemont Seneca** and **Hunter Biden's** illegal financial dealings, including foreign transactions and bribery schemes tied to multiple foreign governments.
- Conspiracy to Suppress Evidence: Coordinated efforts with other senior officials to block the Robert H. Biden laptop cover-up, suppress evidence, and mislead the public during the 2020 election cycle.
- Election Interference: Used her position to facilitate intelligence suppression and misleading investigations, influencing the 2020 election process and contributing to the concealment of evidence crucial for fair elections.
- Aiding and Abetting a Criminal Enterprise: By failing to act on Rosemont Seneca's illegal operations, Monaco enabled a criminal organization to continue its illegal activities without facing legal consequences.
- Failure to Act on Classified Intelligence Tied to National Security Threats: Ignored or actively suppressed intelligence related to national security threats, including intelligence that connected foreign financial crimes with terrorism funding networks and illegal immigration operations.

Key Offenses:

- Border Invasion Facilitation & Social Security Fraud: Facilitated the influx of illegal immigration by covering up financial crimes related to Social Security fraud and border-related human trafficking operations.
- Fraudulent Election Practices & Voter Manipulation: Her active suppression of intelligence and evidence related to election interference contributed to illegal voting practices and a fraudulent election narrative.
- The Border Crisis & Its Consequences: Monaco played a significant role in facilitating the border collapse through weak enforcement and obstruction of critical investigations into the Rosemont Network's ties to illegal immigration.
- **Directed DOJ Inaction**: Monaco helped shield RSP-LLC from federal investigations by **refusing to prosecute** financial and lobbying crimes tied to Robert H. Biden.
- Blocked Enforcement in Pennsylvania: Despite clear jurisdictional ties to Pennsylvania (via RSP-LLC), Monaco failed to coordinate with PA authorities, intentionally obstructing any regional prosecutions.
- **Suppressed Whistleblowers**: Monaco's DOJ retaliated against IRS and intelligence whistleblowers who attempted to expose financial corruption.
- Continued the Laptop Cover-Up: Although she did not sign the original 2020 letter, Monaco actively maintained the deception—preserving the election fraud narrative and silencing national security concerns well into Biden's presidency.
- Enabled the 9/11/2023 Iran Payment: Monaco's office had the duty to review, halt, or raise national security concerns over the \$6B Iran transfer. She failed—knowingly empowering a hostile nation on the symbolic date of 9/11.
- **Tied to the Biden's Butler Bullseye Failure**: By shielding intelligence and failing to act on classified signals, Monaco helped create the conditions that allowed the Butler attack to occur.

- 18 U.S.C. § 1001 False Statements to Federal Officials
- 18 U.S.C. § 595 Election Interference
- 18 U.S.C. § 1962 RICO

Lisa Monaco is **not** entitled to sovereign immunity.

- Sovereign immunity does **not** apply when federal officials knowingly engage in obstruction, conspiracy, or RICO-qualifying conduct.
- Monaco's omissions were not discretionary—they were **deliberate**, repeated, and **strategically protective of a criminal enterprise.**
- Her role in shielding Rosemont Seneca Partners, LLC and suppressing enforcement across state lines—particularly in Pennsylvania—places her outside the scope of lawful DOJ functions.

Monaco's actions facilitated election interference, national security breaches, and obstruction of justice in both federal and state jurisdictions.

By failing to prosecute known crimes, suppressing whistleblowers, and allowing the \$6B Iran transfer to proceed unchallenged on 9/11/2023, she aided and abetted acts that ultimately led to political violence, foreign-sponsored terror, and domestic instability.

Under both the **Bivens doctrine** and **Pennsylvania state law**, Monaco's actions are **not protected.**

She is liable under **18 Pa.C.S. § 911** (Pennsylvania RICO) and multiple federal conspiracy and obstruction statutes.

Defendant Profile: Jake Sullivan

Role:

Jake Sullivan served as National Security Advisor under Joseph R. Biden Jr., overseeing U.S. national security policy and foreign relations. Sullivan was a central figure in shaping U.S. foreign policy that directly benefited the Rosemont Network and its financial and political influence. His decisions contributed to border collapse through weak immigration enforcement and helped enable material support for terrorism, particularly Hamas, as well as political violence in the U.S. His actions directly facilitated the 10/7/23 Hamas massacre and the Biden's Butler Bullseye, a coded targeting mechanism for political violence.

■ Alleged Violations:

- Foreign Policy Manipulation: Sullivan's foreign policy decisions strategically benefitted the Rosemont Network and facilitated the collapse of U.S. border security through compromised immigration enforcement policies.
- Obstruction of Intelligence: Sullivan suppressed critical intelligence related to Rosemont Seneca Partners and Biden family dealings, impeding investigations into their foreign financial crimes.
- Material Support for Terrorism (18 U.S.C. § 2339A/B): Sullivan played a key role in facilitating the \$6 billion deal with Iran in September 2023, which contributed directly to Hamas' ability to carry out the 10/7/23 attack.
- RICO Violations: Sullivan is connected to criminal conspiracy activities through his suppression of intelligence and his involvement in facilitating the Rosemont Network's financial operations.
- Conspiracy to Suppress Evidence: Sullivan's suppression of evidence regarding Biden family dealings in Ukraine and China is part of a broader criminal conspiracy aimed at
- Border Invasion Facilitation & Social Security Fraud
- Fraudulent Election Practices & Voter Manipulation
- The Border Crisis & Its Consequences

References:

• See Joseph R. Biden, Jr.'s PA2 and Joseph R. Biden, Jr.'s USC2 for detailed criminal activities related to Jake Sullivan's role in border invasion facilitation, including fraudulent SSNs, human trafficking, illegal immigration, and more.

Key Evidence:

- Coordinated Cover-Up of Biden's Foreign Dealings: Sullivan suppressed intelligence related to Rosemont Seneca Partners and Biden family transactions, hindering investigations into illegal foreign financial activities.
- Iran Deal Timing & Symbolism (9/11/2023): Sullivan played a significant role in unfreezing \$6 billion to Iran on 9/11/2023, the centenary anniversary of Hitler's coup, a historically significant date tied to terrorism. These funds enabled Iran's support for Hamas and facilitated the 10/7/2023 Hamas massacre.
- Foreknowledge of Political Violence: As National Security Advisor, Sullivan had access to intelligence reports regarding domestic terrorism threats but failed to act on them, resulting in the Butler assassination attempt.
- Ties to Prior Intelligence Manipulation: Sullivan's involvement in the Trump-Russia hoax and subsequent suppression of intelligence related to Robert H. Biden's laptop further highlights his role in manipulating information for political gain and concealing Rosemont Network crimes

Sovereign Immunity

- Sullivan is not protected by sovereign immunity: Sullivan's actions, such as facilitating material support for terrorism, obstructing intelligence investigations, and covering up criminal activity, fall outside the scope of official duties and sovereign immunity protections.
- Bivens Doctrine: Under the Bivens doctrine, Sullivan is personally liable for violating constitutional rights, including criminal conspiracy, obstruction of justice, and material support for terrorism. His conduct, particularly in the Rosemont Network's operations, directly contributes to election interference and national security violations.

Statutory Violations – PA & Federal

Pennsylvania Statutes:

- 18 Pa.C.S. § 903 Criminal Conspiracy: Sullivan's coordinated efforts to suppress intelligence and obstruct investigations into Rosemont Seneca Partners and the Biden family's foreign dealings make him liable for criminal conspiracy under Pennsylvania law.
- 18 Pa.C.S. § 902 Criminal Solicitation: Sullivan solicited and coordinated efforts to produce false statements regarding Hunter Biden's financial activities, facilitating the cover-up.
- 18 Pa.C.S. § 2709 Harassment (via Intelligence Suppression): Sullivan's obstruction of investigations and suppression of intelligence violated the rights of the public and individuals seeking to expose the truth.

• 18 Pa.C.S. § 5301 – Official Oppression: Sullivan's actions to suppress intelligence related to Biden's illegal activities and obstruct investigations represent official oppression, a direct violation of public trust.

Federal Statutes:

- 18 U.S.C. § 1962 RICO: Sullivan's facilitation of Rosemont Seneca Partners' criminal activities and his role in the suppression of financial crimes contribute to RICO violations.
- 18 U.S.C. § 1512 Obstruction of Justice: Sullivan obstructed investigations into Rosemont Seneca Partners and other critical intelligence that could have exposed Biden family dealings.
- 18 U.S.C. § 2339A/B Material Support for Terrorism: Sullivan's role in the Iran deal directly contributed to Hamas financing and the 10/7/2023 massacre.
- 18 U.S.C. § 371 Conspiracy to Defraud the United States: Sullivan's suppression of intelligence and foreign dealings amounts to a conspiracy to defraud the United States, obstructing efforts to uncover Rosemont Seneca's financial operations.
- 18 U.S.C. § 242 Deprivation of Rights Under Color of Law: By failing to act on critical intelligence and facilitating foreign financial dealings, Sullivan deprived U.S. citizens of their constitutional rights, furthering political violence.

51 Intel Signers: Hunter Laptop Letter and Legal Violations

In October 2020, 51 former intelligence officials signed a letter falsely claiming that the Hunter Biden laptop had "all the classic earmarks of Russian disinformation." This false narrative was designed to suppress critical evidence that could harm Joe Biden's candidacy and protect Rosemont Seneca Partners (RSP-LLC), a network with deep ties to the Biden family and foreign governments.

By misrepresenting the laptop's contents, the signatories actively contributed to misleading the electorate, shielding Joe Biden from political damage, and ensuring his victory in the 2020 presidential election. Their actions not only protected Biden's candidacy but also obscured the corrupt financial dealings connected to RSP-LLC.

While 8 signatories were later rewarded with positions under the Biden administration, the remaining 43 signatories contributed to the cover-up, shielding the Rosemont Network from public exposure and legal scrutiny.

Roles of These Signatories

These individuals, many from the CIA, NSA, and other national security agencies, used their expertise to discredit the **Hunter Biden laptop** and prevent investigations into its contents. By doing so, they ensured that evidence of **illegal foreign financial transactions** involving the **Biden family** and **Rosemont Seneca** was kept hidden from public view.

Protection of the Rosemont Network

Through their actions, these signatories played a crucial role in suppressing evidence that would have exposed the **Biden family's** corrupt financial dealings and their involvement in a global political network. By preventing this information from becoming public, they protected **RSP-LLC**, which benefited both politically and financially from **Biden's political influence**.

Violations and Legal Implications

The coordinated effort by these **51 signers** constituted significant violations of both **Pennsylvania state law** and **U.S. federal law**. Their involvement in discrediting the laptop and obstructing investigations ties them to **election interference** and **conspiracy** to protect a **criminal enterprise**.

PA Violations (Pennsylvania State Code)

1. Election Interference (25 P.S. § 3527):

- The suppression of the Hunter Biden laptop story directly interfered with the 2020 election, influencing the outcome by hiding key information from the electorate.
- o **Addition/Clarification**: You could emphasize how this interfered with voters' right to a fair election by denying them full access to relevant information, which could have altered their voting decisions.

2. Obstruction of Justice (18 Pa.C.S. § 5101):

- The cover-up of evidence from the Hunter Biden laptop suppressed investigations into potentially criminal foreign dealings, obstructing justice at the state level.
- Addition: Consider expanding this point by explaining how the actions of these signatories served to protect the Rosemont Seneca Network and its influence within Pennsylvania.

3. Conspiracy to Defraud Pennsylvania Citizens (18 Pa.C.S. § 911):

- These individuals were involved in efforts to mislead the public by suppressing damaging information regarding the Biden family and their connection to foreign business dealings.
- o **Addition**: You might include how these conspiracies hindered transparent governance, impacting public trust in elected officials.

USC Violations (U.S. Federal Code)

1. Obstruction of Justice (18 U.S.C. § 1512):

- The actions of the signatories discredited the Hunter Biden laptop evidence, obstructing federal investigations and making it more difficult to pursue criminal charges.
- o **Addition**: You can point out the broader impact of these actions on the integrity of federal investigations into corruption and election interference.

2. Election Interference (18 U.S.C. § 595):

- By working together to discredit and suppress the Hunter Biden laptop, these individuals undermined a free and fair election, skewing public opinion and preventing full transparency.
- **Addition**: Highlight how election interference by such powerful figures not only affects the election but also undermines democratic principles.

3. RICO Conspiracy (18 U.S.C. § 371, 18 U.S.C. § 1962):

- o The cover-up of the Hunter Biden laptop was part of a broader conspiracy to protect Rosemont Seneca Partners (RSP) from legal and public scrutiny, forming a criminal enterprise that shielded it from federal investigations.
- Addition: It might help to outline how these actions fit into a larger, ongoing effort to protect powerful political figures involved in illegal international dealings and what the long-term consequences are.

UCMJ

- If any of the individuals involved were active military members or served in any capacity related to military operations, this could be crucial to mention. Violations under the **Uniform Code of Military Justice (UCMJ)** may include:
 - Article 92 (Failure to Obey Order or Regulation): If any military personnel participated in or facilitated the cover-up, it could be seen as an unlawful failure to uphold military law or to act in accordance with military regulations.
 - Article 133 (Conduct Unbecoming an Officer and a Gentleman): If military
 officers were involved in actions that obstructed justice or misled the public, they
 could be charged under this article.

Additional Defendant:

Natasha Bertrand – CNN Reporter (Politico at the time)

Although not one of the official 51 signatories, Bertrand played an equally central role in the suppression of the Hunter Biden laptop story by publishing the now-infamous "51 Intel Officials" disinformation letter in *Politico*, just weeks before the 2020 election. In 2025, she resurfaced as the lead byline on a CNN leak of classified DIA intel, spinning false narratives to again protect the Rosemont Network and discredit U.S. national security operations under President Trump.

Bertrand's media role mirrored the intent and impact of the 51 signers — interfering with the 2020 and 2024 elections, shielding RSP-LLC, and protecting Biden's credibility using weaponized journalism.

Conclusion

The 51 signatories of the Hunter Biden laptop letter were key players in a coordinated disinformation campaign designed to suppress critical evidence that could have exposed the Rosemont Network and RSP-LLC. Their actions were essential in protecting Joe Biden's political ambitions and shielding his family's financial dealings, while misleading the American public and influencing the 2020 election.

Out of these 51 signatories, 8 were later rewarded with positions under the Biden administration, demonstrating the political nature of this cover-up. The remaining 42 signatories—though not directly employed by Biden—still played a crucial role in preventing the truth from reaching the electorate, thereby enabling the continuation of the Biden family's corrupt operations.

It is important to note that one of the signatories, Vincent Stewart, is deceased. However, his actions before his passing were still instrumental in the suppression of critical information that would have exposed the criminal operations tied to RSP-LLC.

By obstructing justice and interfering in the election, these individuals worked to protect a criminal enterprise, ensuring that RSP-LLC remained safe from legal scrutiny. Their actions were not just about protecting one individual, but safeguarding a larger network of corruption that spanned multiple countries and was deeply tied to Pennsylvania.

As a result of their coordinated disinformation and active cover-up, these signatories are complicit in actions that not only influenced the 2020 election but also contributed to the perpetuation of a global network of corruption. Justice must be served to ensure accountability for all those involved.

Sovereign Immunity Does Not Apply:

These individuals were not acting in any official U.S. government capacity at the time of signing. Their actions were:

- Politically motivated
- Outside the bounds of lawful duty
- · Carried out without government authorization

This places them outside all sovereign immunity protections. Their participation in a private political conspiracy removes any shield from state or federal prosecution.

Defendant Profile: Rosemont Seneca Partners, LLC (RSP-LLC)

- **Role:** The Financial Hub of the Rosemont Network, a central financial vehicle for political corruption, foreign collusion, and illicit financial activities, founded by Robert H. Biden, Devon Archer, and Christopher Heinz. Additionally, RSP-LLC was designed to ensure that Joe and the Biden family remained in power, keeping Joseph R. Biden in the White House at all costs."

- 18 U.S.C. § 371 (Conspiracy to Commit an Offense Against the United States) RSP-LLC's leadership conspired to influence U.S. elections through financial fraud.

Key Evidence:

Hunter Biden's Own Admission – The Pennsylvania Nexus of RSP-LLC

- Robert H. Biden personally admitted that Rosemont Seneca Partners, LLC (RSP-LLC) was named after Rosemont Farms in Fox Chapel, Pennsylvania.
- This directly ties **RSP-LLC** to **Pennsylvania**, reinforcing jurisdiction under state law. The **Rosemont Seneca Corridor**, where **Butler**, **PA** represents the "bullseye", is crucial to the legal foundation of this case.
- Regardless of **RSP-LLC's** incorporation in **Delaware**, **D.C.**, or elsewhere, its financial crimes have direct **Pennsylvania roots**, especially as they relate to influence and corruption tied to local entities.
- Notably, **Biden's Butler Bullseye**, where **President Donald J. Trump** was caught and shot, anchors the **Rosemont Seneca** network within a critical region of **Pennsylvania**, which also witnessed the **murder of Corey Competore**, a resident of **Butler**, further underscoring the violent consequences of the political and financial activities tied to **RSP-LLC**.

RSP-LLC's Role in Foreign Bribery & Money Laundering

- RSP-LLC facilitated financial transactions with foreign entities, including those in China, Ukraine, and Kazakhstan.
- These transactions were **funneled through offshore accounts**, effectively shielding them

from U.S. regulatory oversight.

- Evidence suggests that foreign money was routed through **RSP-LLC** in exchange for **political influence** and **policy favors**, creating a structure for **money laundering** and bribery.
- Connection to the Rosemont Network & Heinz Family
- Christopher Heinz was an original partner in RSP-LLC before publicly distancing himself from the firm.
- Despite **Heinz's departure**, **RSP-LLC** continued to function as a **financial conduit** for illicit dealings and **political influence**.
- John F. Kerry, through his influence as Secretary of State, helped shield RSP-LLC's financial operations from regulatory scrutiny, protecting the Rosemont network's illegal dealings at an international level.
- Use of RSP-LLC as a Political Shield for Biden Family Corruption
- Payments routed through RSP-LLC helped conceal direct bribery payments to Robert H. Biden and other family members.
- By creating a **corporate veil**, **RSP-LLC** allowed the **Biden family** and their associates to engage in **financial corruption** while evading oversight.
- RSP-LLC's role in these schemes mirrors tactics commonly used by **organized crime** syndicates, designed to conceal the true nature of illicit activities.

Scope of Named Entities:

While Rosemont Seneca Partners, LLC (RSP-LLC) is named explicitly, several other Rosemont-associated entities are still under review. As the investigation into the named Defendants and Potential Co-Conspirators progresses, additional entities that facilitated or benefited from the same criminal enterprise may emerge. These could include entities like Rosemont Capital, Rosemont Realty, and others. Any such entities, once corroborated by sufficient evidence, will be subject to future legal action and potential inclusion in this case.

Broader Connection of Rosemont Seneca Partners, LLC (RSP-LLC) to Other Rosemont Firms

Rosemont Seneca Partners, LLC (RSP-LLC) is not an isolated entity but rather the centerpiece of a much broader network of **Rosemont-branded firms**. These companies, which include **Rosemont Capital**, **Rosemont Realty**, **Rosemont Associates**, and others, operate in parallel, often in the realms of private equity, real estate, lobbying, and consulting. The use of the "**Rosemont**" name across these firms reflects a coordinated network, with deep financial, political, and business connections.

Key Rosemont Entities Linked to RSP-LLC:

1. Rosemont Capital:

Rosemont Capital is a private equity firm heavily involved in global investment strategies. Its association with RSP-LLC and its founders links it directly to the financial ventures that Hunter Biden, Devon Archer, and Christopher Heinz were involved in. Rosemont Capital provided the financial backing and market access that supported many of the early business dealings of RSP-LLC, particularly in regions like Ukraine and China. This network facilitated cross-border investments, often involving political influence and corporate lobbying.

2. Rosemont Realty:

Rosemont Realty operates within the real estate sector, engaging in both commercial and residential investments. While its focus is different from RSP-LLC, it shares financial backing and key personnel, including Hunter Biden and Devon Archer, who used their positions in Rosemont Seneca to secure real estate deals that would benefit the broader network. The influence and reach of Rosemont Realty helped solidify the power and wealth of the Rosemont brand, adding another layer to the firm's reach in both the business and political arenas.

3. Rosemont Associates:

Rosemont Associates is another key entity within the Rosemont Network. As a consulting firm, it often acts as a bridge between Rosemont Seneca and government officials, facilitating influence-peddling and financial deals across multiple sectors. The ties between Rosemont Associates and RSP-LLC are particularly strong, with Christopher Heinz and Devon Archer often using the firm's connections to further their political and business agendas.

Broader Implications of the Rosemont Network:

While **Rosemont Seneca Partners, LLC (RSP-LLC)** may be the most prominent, the broader **Rosemont network** includes a web of financial and consulting firms that have operated across multiple industries and countries. These entities often work together to ensure political influence and financial gain, leveraging their connections to government figures like **Joe Biden**, **John Kerry**, and others.

The **Rosemont network** has been implicated in several high-profile scandals, including those involving **Burisma**, **China**, and **Ukraine**. As these **Rosemont entities** operate in parallel, they help shield each other from public scrutiny, with the brand acting as both a **symbol of political influence** and a **shield against legal challenges**.

Legal and Ethical Questions:

The use of the "Rosemont" name across these various entities raises numerous legal and ethical questions, particularly regarding conflicts of interest, influence-peddling, and fraud. The ongoing investigations into RSP-LLC and its affiliated entities suggest that the full scope of Rosemont's operations—including its real estate, financial dealings, and political lobbying efforts—may still be far from fully understood.

Given that Christopher Heinz, Hunter Biden, and Devon Archer were all deeply involved in the operations of RSP-LLC and its associated entities, the legal repercussions for the broader Rosemont network could extend well beyond just RSP-LLC. As more entities and their connections are uncovered, they could play a critical role in understanding the full extent of the Rosemont network's influence and its potential legal violations.

Defendant Profile: Robert H. Biden

Co-Founder of Rosemont Seneca Partners, LLC | Financial Architect of the Rosemont Network | Alleged Operator of Foreign Bribery and Election Interference Schemes

Role:

Robert H. Biden—commonly known as "Hunter Biden"—served as the chief financial architect of Rosemont Seneca Partners, LLC (RSP-LLC). As co-founder of the firm, he was responsible for executing illicit foreign influence deals, managing laundered transactions, and serving as the primary financial bridge between hostile foreign interests and U.S. political power—particularly his father, Former President Joseph R. Biden Jr.

While Hunter did not hold a formal role at the **Penn Biden Center**, the center served as a **critical shield for his operations**—staffed by his father's closest confidants and partially funded by **foreign sources**, including Chinese-linked donations that surged after the office opened. **The University of Pennsylvania (UPenn)** thus became an **institutional firewall** that helped the Biden family **conceal evidence**, **coordinate messaging**, and **protect the Rosemont Network's financial infrastructure**.

His actions placed **Pennsylvania at the epicenter** of a **transnational RICO enterprise**, now known as the **Rosemont Network**, which engaged in **election interference**, **suppression of investigations**, and **financial sabotage of domestic political opposition**.

- RICO Conspiracy & Corrupt Organizations
- Money Laundering & Financial Fraud

Findings & Supporting Evidence

Summary of Role in Violations:

Robert H. Biden was not a passive recipient of influence—he built the machinery that enabled the Rosemont Network to operate. From structuring high-level bribery deals to shielding criminal proceeds, his fingerprints are found on every phase of the operation—including the events leading to the 2024 Butler assassination attempt.

ERSP's Founding & Pennsylvania Connection (2009):

- RSP-LLC's name and structure trace back to **Rosemont Farms** (Fox Chapel, PA) and Seneca, PA, grounding the firm—and its crimes—within Pennsylvania jurisdiction.
- Biden and Devin Archer founded RSP-LLC as a **front company** for high-level international transactions designed to **influence U.S. policy decisions through cash payments**.
- These operations were routed through **PA-based financial institutions and legal entities**, giving the state clear prosecutorial authority.

The Rosemont Seneca Bullseye (RSB):

- Robert H. Biden helped shape the geographic and financial framework behind the Rosemont Seneca Bullseye, which ultimately became the target zone for the 2024 Butler attack.
- His financial structuring **enabled the positioning of foreign influence within Pennsylvania**, giving the attack symbolic and operational alignment.

EForeign Money Laundering & Bribery Scheme:

- Millions of dollars flowed from Ukraine (Burisma), China (CEFC), and Russia-linked oligarchs directly to RSP-LLC.
- These funds were funneled through **PA-based and Delaware-linked structures**, enabling **Biden family enrichment through disguised lobbying and policy manipulation**.
- Testimony and emails confirm **Hunter's role in leveraging his father's name for direct payment**—often described as "The Big Guy," as in "10% to the Big Guy."

Election Interference & Obstruction of Justice:

- Robert H. Biden's laptop contained direct evidence of the Rosemont Network's
 operations, but was suppressed by intelligence operatives acting on behalf of Biden's
 political allies.
- This suppression benefited **not just Robert**, **but the entire Biden campaign**, constituting a **coordinated election interference scheme**.
- Key emails reveal Hunter's involvement in advance briefings and damage control planning related to the cover-up.

UPenn Connection & Strategic Intelligence Concealment:

- While Biden did not hold an official position at the **Penn Biden Center**, he **benefited directly from its operations**.
- The Center—staffed by his father's closest political operatives—was used to store classified material and manage Rosemont-related coordination.
- Multiple foreign-linked staff members rotated through UPenn and into the White House, shielding financial actors from exposure.
- This gives **Pennsylvania a secondary jurisdictional basis** for investigating financial crimes facilitated through **an academic institution in its capital city**.

Burisma & Energy Corruption:

- Robert H. Biden's board seat at **Burisma** was secured not for expertise, but for **protection**, confirmed by executives on record.
- These "business arrangements" served as cover for cash transfers, international manipulation of U.S. policy, and the enrichment of the Biden-Rosemont syndicate.

Fraudulent Tax & Banking Records:

- Whistleblowers have provided sworn testimony about **intentional manipulation of financial data** and **omission of foreign income**.
- Co-founder Eric Schwerin admitted to participating in these actions, implicating Hunter in multi-layered tax evasion and concealment.

Connection to the 2024 Butler Assassination Attempt:

 The operational footprint that allowed Trump to be targeted in Butler, PA was financially laid by RSP-LLC's long-range planning.

• Robert H. Biden created and enabled the infrastructure that **transformed the Rosemont** alignment into a weaponized bullseye.

Final Verdict:

- Robert H. Biden wasn't a victim of addiction—he was an active conspirator in international bribery, classified concealment, and political suppression.
- His financial schemes directly enabled the formation of the Rosemont Seneca Bullseye.
- His laptop revealed everything—but the system protected him.
- He must now be held accountable—under **Pennsylvania and federal law**—for financial crimes, election interference, and material contributions to a conspiracy involving **political assassination**.

Defendant Profile: George Soros & Alexander Alex F.G. Soros

Role:

George Soros (born György Schwartz) is the **founder** and **chairman** of **Soros Fund Management** and the **Open Society Foundations (OSF)**. His son, **Alexander G. Soros**, has increasingly taken an active role in managing Soros' network. Together, they are key figures behind a global influence campaign aimed at manipulating financial systems, destabilizing borders, and controlling political outcomes in the U.S. and abroad. Through their extensive financial contributions, they have shaped U.S. domestic and foreign policy in ways that benefit their globalist agenda, most notably in facilitating mass immigration, suppressing investigations, and funding organizations aligned with their political interests. Their network has direct ties to the **Rosemont Network**, influencing U.S. elections and global conflicts.

The information provided outlines George Soros' and Alexander Soros' connection to the Rosemont Network and their involvement in a range of alleged offenses, including terrorism funding, election interference, financial crimes, and their role in border destabilization. Given their financial influence, Soros' role in the Weather Underground-linked revolutionary agenda is included, highlighting their support for policies that create social instability and promote the collapse of the U.S. judicial system. Their financial contributions to organizations and DAs advocating Zero Cash Bail are also central to their alleged activities.

Alleged Offenses:

- Election Interference & Conspiracy
- Obstruction of Justice
- Material Support for Terrorism (Iran-Hamas Pipeline)

Conspiracy to Commit Financial Crimes

- RICO Violations
- Facilitation of Border Invasions
- Human Trafficking & Social Security Fraud

References

See **Joseph R. Biden, Jr.'s PA2 and USC2** for detailed information on George and Alexander G. Soros' role in border invasion facilitation and related crimes, tied to the broader failure of Biden's border policies and immigration enforcement. Their involvement in financing terrorism, election interference, and destabilizing international conflicts plays a direct role in undermining U.S. sovereignty and supporting globalist agendas.

Key Evidence

Orchestrating Election Interference & Border Manipulation

- George Soros has been a major financier of left-wing political movements in the U.S., often using his wealth to fund organizations that undermine national sovereignty, destabilize borders, and influence immigration policy. His Open Society Foundations (OSF) have backed NGOs and advocacy groups that promote open-border policies, fueling the collapse of U.S. border security and facilitating illegal immigration.
- Soros has also been linked to the **2020 U.S. Presidential Election** interference, using his financial empire to support organizations that promoted **false narratives** and **election manipulation** efforts.

■ Material Support for Terrorism (Iran-Hamas Pipeline)

- Soros indirectly facilitated the unfreezing of \$6 billion to Iran in 2023, which was used to fund Hamas, enabling the 10/7/2023 Hamas massacre. The funds, which were claimed to be for humanitarian purposes, were directly used by Iran to finance terrorism, including acts of violence against U.S. allies. This represents a violation of 18 U.S.C. § 2339A, providing material support for terrorism.
- Soros' financial influence extends to destabilizing the **Middle East**, and through his network, he has been involved in efforts that promote the interests of state sponsors of terrorism.

Financial Crimes & Conspiracy

 Through Soros Fund Management and OSF, George and Alexander G. Soros have orchestrated a global financial conspiracy to destabilize U.S. borders and support foreign policy decisions that advance their political goals.

• They are complicit in **money laundering** and **fraudulent financial practices** that benefit the **Rosemont Network** and further the **globalist agenda**. This includes supporting **illegal immigration** networks and **human trafficking** operations, which exploit vulnerable populations for political gain.

Suppression of Intelligence & Political Manipulation

• Soros' vast financial network has funded efforts to **suppress intelligence**, obstruct investigations into **Biden family financial crimes**, and interfere with **U.S. election processes**. This includes suppressing evidence that could have exposed **Rosemont Seneca Partners (RSP-LLC)** and its ties to foreign financial corruption.

Creating Conditions for Political Violence

• Through his financial influence and political manipulation, Soros has created conditions that promote **political violence**, particularly in the **immigration and border policy areas**. His support for violent left-wing movements and organizations has contributed to a surge in **political unrest** and instability, particularly through funding groups that encourage **illegal border crossings** and anti-American sentiment.

Weather Underground Connection:

George Soros' financial support for radical DAs, including Chesa Boudin, is seen as an extension of the Weather Underground's revolutionary ideology. These DAs push for Zero Cash Bail policies that align with the Weather Underground's goal to overthrow the U.S. judicial system.

Zero Cash Bail:

• Through his funding, **Soros** has played a major role in **facilitating Zero Cash Bail policies** that prioritize leniency over law and order, contributing to **widespread criminal activity** and destabilization in major cities like **San Francisco** and **Los Angeles**.

Soros' Revolutionary Influence:

• Soros' network, via his Open Society Foundations, has actively supported globalist causes that aim to destabilize borders and political structures, promoting radical reform policies that ultimately lead to social chaos.

Christopher Heinz and His Ties to the Rosemont Network

Christopher Heinz, as the stepson of Secretary of State John F. Kerry, played a key role in the formation and early financial backing of Rosemont Seneca Partners, LLC (RSP-LLC). His involvement in the company was pivotal, providing not only financial backing but also access to political and financial networks due to his family's connections.

The "Rosemont" name itself has deep significance, originating from the Heinz family's Rosemont Farms in Fox Chapel, PA. This connection to the Heinz family's real estate, which was inherited by Teresa Heinz-Kerry after the death of her husband, Senator John Heinz III, added early-stage credibility to the firm, helping RSP-LLC establish itself in the political and financial sectors. Christopher Heinz's family legacy through Rosemont Farms was instrumental in giving Rosemont Seneca Partners, LLC (RSP-LLC) its initial foothold.

Although Christopher Heinz later distanced himself from RSP-LLC in 2014, particularly after Hunter Biden and Devon Archer joined the board of Burisma, he never fully severed ties with the Rosemont network. His other business ventures, including Rosemont Capital and Rosemont Realty, continue to carry the Rosemont name. Heinz did not demand that RSP-LLC change its name, maintaining a connection to the network he helped establish.

Heinz's relationship with Hunter Biden evolved from a **direct** business relationship to a more **indirect** one, though both continued to share associations with the **Rosemont** brand. The **Rosemont Seneca Partners** name continued to link them professionally, even as **Heinz** distanced himself from direct involvement in the firm.

Christopher Heinz's stepfather, John Kerry, was also intricately involved in the political and financial dynamics that tied RSP-LLC to international events, particularly in Ukraine. One key example is the controversial Shokin firing incident, in which Joe Biden, acting as Vice President, pressured Ukraine to remove Prosecutor Viktor Shokin, who was investigating Burisma. Kerry's role in this political maneuver raises questions about how RSP-LLC and its associates, including Heinz, were potentially shielded from scrutiny due to the political influence wielded by Kerry and his step-son Heinz.

Despite Heinz's alleged attempt to distance himself from Rosemont Seneca Partners, LLC (RSP-LLC), the continued use of the "Rosemont" name across various entities ties him to the broader network, which remains under investigation for potential legal and ethical violations, including lobbying, influence peddling, and fraud.

Defendant Profile: Eric Schwerin

Role: President of Rosemont Seneca Partners, LLC (RSP-LLC); Chief Financial Officer for Biden-linked financial operations; direct handler of Joseph R. Biden's personal finances. Schwerin served as the financial gatekeeper for the Rosemont Network, overseeing illicit transactions, coordinating international wire transfers, and managing accounts that funneled money to Hunter Biden and other operatives.

Alleged Offenses: Money laundering, financial fraud, obstruction of justice, criminal conspiracy, and possible election finance violations under RICO.

W Key Evidence:

- Architect of RSP's Financial Crimes: As President of RSP-LLC, Schwerin structured the firm's accounts and financial pipelines. He had direct knowledge and authority over foreign and domestic banking transactions from 2009 to 2014, including deals that likely violated U.S. election law, tax law, and FARA regulations.
- RSP's PA-Based Conduits: Schwerin managed and approved financial activities linked to Pennsylvania-based nodes in the Rosemont Network. His knowledge of RSP's operational reach and financial architecture directly implicates him in crimes committed in the Commonwealth of Pennsylvania.
- Handled Joe Biden's Personal Finances: Emails confirm Schwerin handled Joseph R. Biden's tax filings, income flows, and household accounting during Biden's Vice Presidency—while also structuring RSP's global financial deals.
- Foundation of the Rosemont Pincer: Schwerin was instrumental in naming the firm and anchoring it to geographic locations in the Rosemont Pincer. He appears to have been aware of the symbolic, political, and operational value of those placements—including Butler, PA.
- **Obstruction & Cover-Up:** Schwerin's testimony before Congress and omission of key financial data strongly suggest he withheld information about illegal foreign payments and election finance violations.
- The 9/11 Connection: Schwerin's financial groundwork laid the infrastructure that allowed RSP's hidden money channels to operate into 2023. This includes financial cover

for foreign adversaries like Iran, ultimately enabling the 9/11/2023 transfer of \$6B used in the Hamas attack.

Eric Schwerin was not a government official during the acts described and does not qualify for sovereign immunity.

Potential Co-Conspirator Profile: Huma Mahmood Abedin

Role:

- Huma M. Abedin served as Hillary Clinton's senior aide during Clinton's tenure as Secretary of State from 2009 to 2013, with a particular focus on U.S. foreign policy and national security operations.
- Abedin was closely involved in the **Benghazi attack** on **September 11, 2012**, the **11th anniversary of the 9/11 attacks**. Her position provided her with direct access to sensitive intelligence and decision-making processes during critical events, including the **lack of response to the Benghazi attack** and the **subsequent cover-up**.
- Abedin's ties to George Soros and Alexander G.Alex Soros through the Open Society
 Foundations (OSF), and her relationship to Alexander G. Soros,) link her to a broader
 network of global financial influence that played a key role in border destabilization,
 immigration policy, and the suppression of critical political and financial information.

Potential Violations:

- Obstruction of Justice
- Failure to Report Criminal Acts

- Aiding & Abetting in Criminal Activity
- Complicity in Suppressing Evidence
- Conspiracy to Facilitate Border Invasions
- Financial Crimes
- Human Trafficking & Social Security Fraud
- Cover-Up of Rosemont Network Activities
- Failure to Act on Intelligence and National Security Threats

Key Evidence:

• Benghazi Attack – 9/11/2012:

- o On September 11, 2012, the Benghazi attack took place, exactly 11 years after the 9/11 terrorist attacks, leaving four Americans dead. Given Abedin's prominent position, it is likely she had access to information surrounding the attack's prevention and the failure to protect U.S. personnel. Questions about prior knowledge and government inaction remain unresolved.
- While the attack remains shrouded in suspicion, particularly as a planned operation that may have been designed to influence political outcomes, Huma M. Abedin may have had direct knowledge of decisions that failed to prevent the attack and subsequent cover-up. Her proximity to Clinton and key decision-makers makes her a central figure in understanding the full scope of this event.

• The 9/11/2023 Iran Funding & Hamas Attack:

- o On **September 11, 2023**, exactly **11 years after the Benghazi attack**, the Biden administration **unfroze \$6 billion** to Iran, which Iran then used to fund **Hamas** and facilitate the **October 7, 2023** massacre. This significant financial transaction links the events of 9/11 and the political violence that ensued.
- O Huma M. Abedin, connected to the Soros network and closely involved in Clinton's dealings, may have known about or been a part of the broader political machinery facilitating such a decision. The \$6 billion transaction could have been a strategically timed move that had global ramifications, much like the Benghazi attack, raising questions about the role of key figures in both events.

• Connection to 9/11/2023 Funding and Hamas Attack:

On the 11th anniversary of the Benghazi attack, the Biden administration's decision to unfreeze \$6 billion in Iranian assets directly enabled the funding of Hamas and contributed to the October 7, 2023 massacre. Huma M. Abedin, closely tied to Soros' network, may have had insight into these strategic moves. The timing and global repercussions of these events suggest that key figures, including Abedin, played a part in facilitating decisions with far-reaching consequences.

The Planned Operations: Connecting Benghazi, the \$6B Iran Funding, and the 9/11/2023 Attack:

• The 9/11/2012 Benghazi attack, the 9/11/2023 Iran funding decision, and the Hamas attack on Israel on October 7, 2023, are strikingly connected, not just by the shared date of September 11th, but also by the broader geopolitical manipulations orchestrated by key figures in U.S. and foreign policy.

- These events, occurring 11 years apart, point to a deliberate manipulation of global and national crises. The **Grok-3 report** indicates that the probability of such a coordinated sequence of events happening exactly 11 years apart is **1 in 19.94 billion**, essentially equating to a **1 in 34 flips of a coin** for heads.
- This remarkable statistical improbability suggests that these events were planned, with coordinated moves that tie into the globalist agenda and the financial and political support of terrorism.
- Huma M. Abedin, with her proximity to high-level decision-makers and financial networks, especially through her connection to **George Soros** and **Alexander G.Alex Soros**, may have direct knowledge or insight into the planning behind these operations.

References:

• See Joseph R. Biden, Jr.'s PA2 and USC2 for detailed information on Huma M. Abedin's role in facilitating the collapse of U.S. borders, human trafficking, and the suppression of evidence tied to the Rosemont Network. Her connections to George Soros and Alexander G.Alex Soros via OSF have given her unique influence within both U.S. political circles and globalist networks.

Sovereign Immunity Considerations:

- Does Sovereign Immunity Apply to Huma M. Abedin?
 - No. As a senior aide deeply involved in actions related to obstruction of justice and the cover-up of Benghazi and other critical political decisions, Huma M.
 Abedin is not shielded by sovereign immunity.
 - Abedin's involvement in criminal conspiracies to suppress intelligence and cover up U.S. foreign policy failures directly conflicts with her official duties. Sovereign immunity does not protect individuals who partake in suppressing critical evidence, especially when such actions contribute to political violence and national security risks.

Rationale for Huma's PCC Status:

- Huma M. Abedin was in a position to be fully aware of the suppressions of intelligence
 and the political manipulations surrounding the Benghazi attack and the subsequent
 cover-up. Her ties to the Soros network and her access to high-level political decisionmaking processes make her a critical figure in understanding the coordinated nature of
 these operations.
- She may have **knowledge** that could connect the dots between **Benghazi**, the **\$6** billion **to Iran**, and the broader **globalist agenda** aimed at destabilizing U.S. sovereignty, including the **planned border invasion** and **financial support for terrorism**. As a **PCC**, she holds key information and insight into these coordinated efforts, potentially providing a window into the operations of the **Rosemont Network** and the political decisions that led to **global unrest**.

Potential Co-Conspirator Profile: Teresa Heinz-Kerry

Role:

- Teresa Heinz-Kerry, the mother of Christopher Heinz, who is a co-founder of Rosemont Seneca Partners (RSP-LLC), is a key figure in the network connected to RSP-LLC.
- As the widow of Senator **John Heinz** and the current wife of former U.S. Secretary of State **John Kerry**, she is connected to significant political and financial influence.
- Teresa Heinz-Kerry is the owner of Rosemont Farms in Fox Chapel, PA, a property at the heart of the Rosemont Seneca Corridor, further strengthening her ties to the network.
- While there is no direct evidence of her active involvement in the criminal activities of RSP-LLC, her familial and financial ties to the network place her at the core of this powerful web of influence.

Potential Violations:

- Failure to Report Criminal Acts
- Complicity in Financial Crimes
- Conspiracy to Facilitate Border Invasions
- Suppression of Evidence
- Cover-Up of Rosemont Network Activities

Key Evidence:

- Ownership of Rosemont Farms: Her property is strategically located within the Rosemont Seneca Corridor and could be instrumental in understanding the geographic and symbolic importance of the network's operations.
- Connection to Key Political Figures: Her marriage to John Kerry, a key player in RSP-LLC, and her late husband's ties to the financial sector, give her substantial access to powerful political and financial circles.
- Financial Ties: As the mother of Christopher Heinz, a founding member of RSP-LLC, Teresa Heinz-Kerry may possess knowledge about the financial and political machinations of the Rosemont Seneca Network.

Rationale for PCC Status:

• Teresa Heinz-Kerry may possess critical information regarding illegal financial transactions, political influence, and cover-ups tied to RSP-LLC, including potential links to the events leading to the Butler, PA shooting.

• Given her deep familial and financial involvement with the **Rosemont Network**, she may have insights into the operations of this network and its connections to broader political and criminal activities within the U.S. government.
